No. 17.—The following resolution of the Government of India is published:—

DEPARTMENT OF COMMERCE AND INDUSTRY

Page One

354, 431 80, 9410, 9411

Sample, also titled May 1914

Reprinted by the Government of India, Department of Commerce and Industries.

In the Statement of the Government of Canada in this Department No. 4418-0004-01, dated the 29th May 1979, it was stated that as view of the satisfactory financial position of the Post Office Insurance Fund the sums eventually payable in respect of existing policies in the Life Branch of the fund could be increased by 1 per cent, and that the sums payable in respect of new business under policies issued on or after the 1st April 1980 would be correspondingly reduced. A recent survey of rates and terms of life insurance policies available in the United Kingdom has shown that there is still a considerable surplus on the life element of contracts entered into prior to the 1st April 1980. The introduction of a considerable portion of the surplus without affecting the financial stability of the Fund.

Majesty's Secretary of State has accordingly authorized the grant to holders of policies on the valuation date, 31st March 1982, of a bonus at the rate of 5 per cent on the sum of Whole Life Assurances, and 5 per cent on the sum of Endowment Assurances, in respect of each year's premium paid since the 1st April 1980.

Period tables have been drawn up showing the new prices rates applicable to future contracts and are available here.

Colony of Beyrout.	12	Governor.	The western front of the Beyrout division of the Jordanian all-glass, at House, Bury & Co. and extending 120 yards to the sea and 50 yards to the rear of the same.	Kendall & Co.	Exporting and ship- ping.

A. BUTENWORTH,
As. Secretary to Government

Government, May 16, 1914.

No. 293.—The following communiqué regarding the opening of Chinese ports to foreign trade is published:—

Peking, 12th January 1914, No. 10 (3632).

By virtue of a Presidential Order, dated the 9th instant, the Chinese Government have spontaneously opened to foreign trade seven towns in North China. These are "Ports" are Kweihsueh'ang, Kalpa, Delaine, Chihing, Tsanashan, Hailuotao and Longchow, and the main result of their "opening" will be to develop international trade and commerce in Inner Mongolia.

1. Kweihsueh'ang is in the extreme north of Shensi; it is a town of approximately 200,000 inhabitants and is an important market for sheep, camel hair, robes and certain Kalpa, in the north of Chihai, has a normal population of 112,000, and is the principal outlet from Inner Mongolia. Both places are connected by rail with Peking, Delaine, east of Kalpa, contains a mixed population of about 15,000 but it is more in the nature of a military camp than a commercial city. Chihing is about 160 miles east of Delaine. Both the latter towns lie outside the Great Wall. Towards an important point on the Mongolia frontier of Fengtien, and will shortly be connected by rail with the South Manchurian Railway.

2. Hailuotao was artificially created, under a British Engineer, during the latter years of the Manchu rule with the object of forming an ice-free port on the Gulf of Liaohung under purely Chinese control. It is already connected with the Peking-Mukden Railway by a branch line from Lianhuo. The question of improving the water approach to Nansheng by the construction of the Liao River is at present under consideration and it, as it is to be hoped, the scheme materializes there may be a better prospect of restoring for Nansheng and Hailuotao the trade which is now to some extent being directed to Dairen.

4. Longchow, in Shantung, is situated about 100 miles west of Chiaofoo and is already one of the principal centres of the pack-horse trade into Manchuria. Some of this traffic might possibly now find its way to Hailuotao.

5. Of the above seven towns, three only are likely to have much interest for British commerce; namely, Kweihsueh'ang, Kalpa, and possibly Hailuotao. Tsanashan might also become a distributing centre for trade with the eastern section of Inner Mongolia. The advantages of Kweihsueh'ang and Kalpa are that British goods will, as in the case with the inland open ports of Manchuria, now reach these places on payment of a single import duty of 5 per cent, instead of the additional 2½ per cent levied on transit trade.

The opening of both these places will enable foreigners to watch at close quarters the working of the present port trade and will facilitate the extensive export business of Tsanashan as well as develop foreign commercial intercourse with both Inner and Outer Mongolia.

Government, June 5, 1914.

No. 294.—The following notification of the Government of India is published:—

DEPARTMENT OF COMMERCE AND INDUSTRY.

GOVERNOR AND MEMBERS.

Rail, the 12th May 1914.

No. 3600.—The following draft of Memoranda which it is proposed to make in exercise of the powers conferred by section 20 of the Indian Miss Act, 1901 (VII of 1901), in the rules regarding conditions of Misses Messengers issued with the notification No. 2564 of (Geology and Minerals), dated the 31st April 1914, is published, as required by the same section, for the information of persons concerned. Notice is hereby given that the draft will be taken into consideration by the Governor General in Council on or after the 12th August 1914.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date fixed aforesaid, will be considered by the Governor General in Council:—

Draft Memoranda.

[illegible]

Calcutt, June 8, 1914.

Under section 4, Act 1 of 1994, His Excellency the Governor in Council hereby declares that the land mentioned in the following schedule and measuring 30 acres, to the same a little more or less, is needed for a public purpose, to wit, for diverting the drainage channel; and, under sections 2 and 3 of the same Act, the three-quarter Deputy Collector, Trincomalee, is appointed to perform the functions of a Collector under the Act and directed to take order for the acquisition of the said land.

2. A plan of the land is kept in the office of the Head quarters Deputy Collector, Trichinopoly, and may be inspected at any time during office hours.

Appendix 2

No. 1029.—With the approval of the Governor in Council the District Board of South Arica hereby resolves, under Section 48 of the Western Land Boards Act, 1904, that, from the 1st of July 1914, a new toll-gate will be opened at the place to the north of the gate in the town of Vaothasapayama, village where the out-tracks branching off from the Tuzumavakia-Pondicherry road and Vaothasapayama at a distance of about 450 yards and 1 mile 475 yards respectively to the west of the existing toll-gate at Kendaungapayama road and that tolls at the maximum rates specified in schedule B of the said Act will be levied on all carriages, carts and animals passing through the said new gate.

With the approval of the Governor in Council the District Board further declares, under the provisions of sub-section (4) of section 47 of the said Act, that payment at any time of tolls at the existing gate near the railway level crossing about three-fourth of a mile to the east of the road from Tuzumavakia to Pondicherry and Vaothasapayama shall cease carriage, carts and animals at the new gate within the same period of 36 hours reckoned from sunrise to sunrise and that payment at the latter gate shall similarly cease carriage, carts and animals of liability to pay toll at the former gate.

No. 1018.—**MR. RY. K. SAKHUMBAR KRISHNAIAH CHETTIYAR** Avargal, a municipal councillor of the municipality of Thiduvampally, having been declared insolvent, the Governor in Council hereby removes him from the office of municipal councillor under clause (3) of sub-section (1) of section 19 of the Madras District Municipalities Act, 1894.

No. 1011.—**The Rev. Albin Theodore Gardner**, a municipal councillor of the municipality of Thiduvampally, having, owing to his departure from India, become incapable of acting as a member of the Municipal Council, the Governor in Council hereby removes him from the office of municipal councillor under clause (3) of sub-section (1) of section 19 of the Madras District Municipalities Act, 1894.

No. 1002.—Under sub-section (1) of section 46 of the Land Acquisition Act, 1894, the Governor in Council hereby withdraws from the acquisition of 25 acres of land in Kandiyipet village in the Tinnervelly municipality of the Tinnervelly district specified in notification No. 495 published at pages 250 and 251 of Part I-A of the Post St. George Gazette, dated 25th March 1915, as required for acquiring a leased house from the Mayor in the Karavalinguda street and well-known as 'A' situate on the Mallar lane up to the Kanakkal lane street in the south ward of the Tinnervelly municipality.

No. 1048.—Under section 4 of the Land Acquisition Act, 1894, the Governor in Council hereby notifies that land is likely to be needed in the villages of (1) Sandhamasolkham, (2) Vallyathur, (3) Varickudi, (4) Samsivayandi, (5) Mangalathipandi, (6) Ramanasandi, (7) Sengunatasandi, (8) Panchanallipandi, (9) Gurusanthasandi, (10) Uthayakudiyandi, (11) Subayyapandi, (12) Ponnasivayandi and (13) Thiruvampiy in the Duvantalai division of the Tanjore district for a public purpose, to wit, for a road from Sandhamasolkham to Tirupettur and he hereby authorises the District Board Engineer, Tanjore, his staff and assistants to enter upon such land and perform all survey of the operations mentioned in the said section.

No. 1124.—Under clause (a) of sub-section (1) of section 256 of the Madras District Municipalities Act, 1904, the Governor in Council issues the following rule:—

The pay of permanent municipal servants appointed to temporary posts should be fixed on the principle as stated in article 18-A of the Civil Service Regulations. Municipal Councils may exercise the powers conferred on a local Government in that article.

No. 1055.—The following notification of the Government of India is republished:—

ARMY DEPARTMENTS.

Dindigul, 26 April 1915.

CAMPMENTS.

REGULATIONS.

No. 418.—The following draft of a rule which it is proposed to make in exercise of the powers conferred by section 24 of the Cantonment Act, 1910 (XXV of 1910), is published as required by section 28, sub-section (2) of the said Act, for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration by the Government-General in Council on or after the 1st June 1915.

Any objection or suggestion which may be received from any person with respect to the draft before the date fixed aforesaid will be considered by the Government-General in Council.

Draft Rule.

In section 28, sub-section (1), of the Cantonment Code, 1913, for clause (b) the following shall be substituted, namely:—

“(b) the payment of such allowance to officers performing the duties of Cantonment Magistrate as may be recommended by the Lieutenant-Governor in Council in India, with the sanction of the Local Government, and sanctioned by the Government-General in Council.”

Modern masculinity; and, under sections 3 and 7, the inhibitor of Bladern is appointed to perform the functions of a Collier under the Act and directed to take order for the suppression of the said coal.

7. A gins of the land is kept in the office of the sub-division of Madras and may be inspected at any time during office hours.

3. This being a case of urgency the said officer is authorized to take possession of the land under section 17 (1) of the Act.

INDIAN SANITARY BOARD.

No. 898—1914.

RESOLUTION.—The progress history of scientific sanitation in India may be said to date from the end of the last century. Previously there had indeed been periods of useful sanitary work and material success. A Royal Commission, appointed in 1889 and reporting in 1893, recommended the formation of committees of public health in the presidencies of Madras, Bombay and Bengal, with a view to the dissemination of sanitary knowledge and the improvement of the health of the general population. These committees were appointed but were soon replaced in each presidency by a sanitary commissioner with an assistant. Sanitary inspectors general, afterwards called sanitary commissioners, were appointed in other provinces; and the sanitary and vaccination staffs were gradually augmented. In 1905, Lord Dufferin's Government issued a resolution drawing the attention of local bodies and village adams to their duties in the matter of sanitation; and sanitary boards were formed in many provinces. But comparatively little success attended these efforts except in the larger towns. On the one side, sanitary measures and systems of western countries were applied to India without due regard to the fundamental differences of western and eastern climates and of the conditions of life in tropical and temperate climates; on the other side, the people were unprepared for reforms of any kind of change.

2. The ravages and horrors of plague and the diseases resulting from unhygienic surroundings made some well impression on the educated community in India; and a demand gradually arose for sanitary surroundings and personal measures, such as had not been known before. Individuals left their insanitary houses for cleaner and brighter localities and in increasing numbers began to realize the dangers to which they were exposed from unclean surroundings, and to appreciate the economic value of health and the wastefulness of sickness and premature death. But little of action was, however, for long manifested among the educated. So far as the uneducated masses were concerned their apathy, tradition and resistance to interference constituted a formidable obstacle to all sanitary progress.

3. The governments in India have moved more rapidly of late. In 1899, the Government of India issued an important statement of policy. In 1903, imperial grants amounting to Rs. 50,00,000 (£700,000) a year were made to local Governments. A new Department of the Government of India was created in 1905 in order to reform the Home Department of education, sanitation and social work branches of the administration. In addition to sanitary conferences held by local Governments, three all-India sanitary conferences have been convened at Bombay, Madras and Calcutta, respectively, over which the Hon'ble the Secretary of State presided as Member of the Governor General's Council in charge of the department concerned. These conferences were attended by representatives as well as officials, by laymen as well as

Sanitary.

professional authorities. Again, the Indian Research Fund Association has been desirous to further the promotion of research, and the propagation of knowledge and *improvements* in medicine generally in connection with the sanitation, mode of spread and prevention of communicable diseases. To this end the Government of India made an annually recurring grant of 5 lakhs of rupees (£13,555). Moreover, since the constitution of the new department of the Government of India, Imperial Grants have been made to local Universities and *Administrations* to the extent of Rs. 5,51,57,000 (£1,37,490), of which Rs. 10,25,000 (£2,56,250) are recurring, and Rs. 4,06,32,000 (£1,705,554) non-recurring. In addition, grants amounting to Rs. 82,55 lakhs (£1,93,875), a year have been made to district boards to enable them to carry out sanitary work, a substantial portion of which will, it is hoped, be expended on rural sanitation. These grants have rendered possible the execution of schemes which a few years ago seemed beyond the limits of financial possibility; and there can be little doubt that the momentum for sanitary reform is now well established and progressive throughout the country.

4. There has thus been progress although the rate has hitherto been slow. In the land of the export one must not expect the pace of the modern. The truly remarkable improvements effected of late years in the health of the army in India, as less than British troops, seem to be expected in connection with the civil population. In the case of the army, the problem is concerned mainly with well-organized adults, all of whom are selected men, living in a sanitary surroundings, under military discipline. Moreover, as much as a soldier becomes used to active service, so he learns the army and forms part of the civil population. In the case of the civil population, the conditions of the problem are very different, and sanitary reform is still to go far to reach a high level of efficiency. In order to be successful it must adhere to three cardinal principles:—

(a) It must rest on a knowledge of the people, their modes of life, their prejudices, social customs and habits, their surroundings and financial means; and it must secure their cooperation.

(b) It must recognize the diversity of local conditions in a country which includes numerous mountains, rivers and woods and which includes almost every variety of climate, temperature, humidity and level of soil and water, from the delta of the Ganges with their stony alluvium and dense lush vegetation to the barren brown hills of the north-west frontier.

(c) It must be preceded by preliminary local surveys, inquiry, or experiment.

5. As a result of the Sanitary Commission's Report Lord Curzon's Government took up with vigour the improvement of the sanitary department. Research Institute was started and an appointment of Sanitary Commissioner with the Government of India was made.

The history of this subject was to reform the Government of India upon sanitary and bacteriological questions to settle with local Government, the principle on which an address should be made and to acquire and direct research throughout India. The experiment was not completely successful. Among the disadvantages, the separation of research from almost work detached from the department, and the other work is connected with research provided the Sanitary Commissioner from undertaking wide and various tasks. The organization was accordingly modified in 1912. The Sanitary Commissioner is now the independent adviser to the Government of India in all bacteriological and sanitary matters, but all questions of personnel as well as the administration of the bacteriological department and research generally have been placed under the control of the Director-General, Indian Medical Service, with the Sanitary Commissioner as his staff officer.

6. The increased strength of the superior sanitary organization in India now is:—

(a) A Sanitary Commissioner with the Government of India.

(b) A bacteriological department comprising:—

(i) Thirteen laboratory appointments distributed as follows:—

Central Research Institute 1 Director and 3 Associates.

Bombay Bacteriological Laboratory 1 Director and 2 Associates.

King Institute of Preventive Medicine,

Madras 1 Director and 1 Associate.

Forster Institute, Kanpur 1 Director and 1 Associate.

Forster Institute, Dacca 1 Director and 1 Associate.

(ii) Other new appointments recently sanctioned for the promotion of research work and direct investigation in the field.

(a) Appointments of health officers in sanitary towns and towns are not included.

(b) Five of these are temporary appointments.

(c) If added to the others given in this statement, the Director, Vaccine Institute, Belgium, is also a sanitary officer.

(d) There is also a temporary appointment.

(e) Two posts.

(f) One of these is temporary.

(g) The above table is not of the medical department in the Sanitary Commissioner.

(h) There is also one health officer in the province.

(i) The Sanitary Commissioner with the Government of India is also Sanitary Commissioner, Delhi.

(j) One of these is temporary.

In their constitution, dated the 13th May 1912, the Government of India provided for a large increase in the number of deputy sanitary commissioners and for the appointment of health officers in the Sanitary Commissioner and of the medical staff for the sanitary towns on the basis of detailed proposals received from local Governments. Twelve additional appointments of deputy sanitary commissioners, thirty-five appointments of health officers in the districts and a large addition to the number of one-class health officers were sanctioned in 1912 and 1913. The entire cost of the additional deputy sanitary commissioners on the basis of the scale of pay fixed for Sanitary and half the cost of the health officers being met by Imperial grants. The Government of India also advised local Governments to take notice, where these did not exist, to require a municipality to appoint a health officer and to give the appointment of a health officer. Such powers already exist in the Bombay Presidency, and have recently been taken by legislation in Bengal. Simultaneously, the Government of India recommended the system in force in Madras whereby every municipality is required to employ one or more sanitary inspectors in proportion to population. Sanitary inspectors are now being employed in large numbers in towns. In addition, the civil surgeon in every district is the sanitary adviser of the local authorities and in most provinces controls the vaccination staff. The provision of an increased staff of sanitary engineers is engaging urgent attention.

The Government of India attach great importance to the organisation of sanitary agencies and have recently made a grant of Rs. 10,000 (10,000) as an equivalent to that given by the Sanitary Commissioner to the Sanitary Committee, which was founded in 1893 and now has corresponding branches in several districts and native states.

7. The policy of the Government of India is to keep the control of research under itself, but to decentralise other branches of sanitation. The creation of an Imperial Department in the department from that policy, and the large Imperial grants already mentioned have been made without any interference with a continued Government. While the general direction of a policy of public health must remain with the central Government, all detailed control and executive action are, and will be, left to local Governments. The Sanitary Commissioner with the Government of India is a senior officer empowered to consult and confer informally with local Governments and their officers upon matters connected with sanitation. It is not permitted to encroach upon the authority of local Governments over the officers under their control.

8. The position of professional sanitary commissioners towards the administrative heads of the medical department varies somewhat in different provinces. The Government of India do not wish to interfere with the arrangements which local Governments may consider best suited to local conditions, but they desire to lay it on the importance of defining the functions of the two offices and ensuring that the sanitary commissioner the position of responsible technical adviser to the local Government in all matters affecting public health.

9. In every province, sanitary boards have been composed with varying powers, some being merely advisory, others having authority in execution schemes and other funds. These boards are composed of officers belonging to the medical, sanitary, engineering and other branches of the civil service with the addition of non-officials. The Government of India now wish to review and standardise the distribution of financial authority and responsibility to these boards, and they proposed to local Governments the appointment of a permanent medical sanitary to the board where this has not been done. They believe that such an appointment, wherever made, has resulted in an increase of efficiency.

10. Arrangements for raising the superior sanitary staff are now engaging the attention of the Government of India. The chief difficulty at present is to provide means to protect hygiene and in

15. Besides financing the investigations conducted by its own staff, the association gives grants-in-aid to certain research as approved lines. The co-operation of other workers has been sought, and every encouragement has been given to them. Grants for research have been made, for instance, to Professor MacMahon, Dr. Rosen and Mr. Haslam. The services of lecturers have also been retained. Dr. Kerke is engaged in an important investigation into malaria, while Mr. Austin, a medical entomologist, is employed under the association. The Government of India cordially approves the policy of encouraging private enterprise in the cause of research.

16. The association has also started a journal for the publication of medical research work done in India—the "Indian Journal of Medical Research"—published quarterly. The favourable reception which has been accorded to the first three numbers is evidence of the increased interest that is being taken in medical science in India to-day.

17. The investigations enumerated above represent the work directly under the supervision of the Government of India. The local Government also are fully alive to the importance of research, and in some instances make special efforts and at present engaged in a reorganizing the system underlying the local problems of malaria and devising suitable schemes for the mitigation of that disease.

18. It remains to consider the results of research as applied to the chief tropical diseases, always remembering that they are liable to malarial or malarialism in the light of further investigation and discussion. The most important tropical disease is malaria. After allowance has been made for the tendency to attribute to fever fevers long when common, malarial attacks are an extremely prevalent in India and in many parts a scourge far greater than other plagues or fevers. It kills as well as kills and causes more misery, misery and death than any other single disease. Measures for the prevention of malaria aim at breaking the cycle of infection in two ways, (a) by attacks on the parasite in man, and (b) by the destruction of mosquitoes. To the former than belong the different systems of quinine prophylaxis and treatment; and to the latter, all those measures which aim at abolishing mosquito breeding grounds. Both methods have been successful in other countries and both have been used successfully in India. The following propositions represent the experience gained up to date:—

- (1) The conditions and causes underlying the prevalence of malaria vary greatly in different places, and no one anti-malarial measure is suitable for all.
- (2) Quinine both as a prophylactic and curative agent is of great value to the individual. Its power of saving life, alleviating sickness and destroying sources of infection cannot be over-estimated. There should be no relaxation in the efforts to educate the people in the use of the drug; and its sale by shopkeepers in rural areas ought to be encouraged.
- (3) The regular administration of quinine to children in schools during the malarial season is a practical measure of early prophylaxis and of present utility; it is valuable also for its immediate good effects on the health of the children and as a means of spreading knowledge of the use of quinine.
- (4) It is extremely useful under control quinine prophylaxis properly carried out is a valuable weapon in the fight against malaria. In India with its low population, the ignorance and apathy of the masses, their prejudice against the drug, their objection to medicine when not actually suffering from fever, and the fact that it must be continued over an indefinite number of years, greatly limit the value of quinine prophylaxis.
- (5) In anti-malarial operations it is not necessary to abolish all breeding grounds of mosquitoes, even of known sources of malarial infection; a marked reduction in health conditions will come if the chief breeding grounds of the malarial-carrying mosquito are cleared.
- (6) Malaria surveys have brought to light important and unexpected facts regarding the breeding of malaria in particular localities. For instance, the mosquito of Major Bates and Dr. Bentley in Bombay showed the fact that malaria did not arise from the swampy surroundings of the city and that the malarial-carrying mosquito was *A. stephensi* which bred in the numerous wells situated in private houses. Again, Major Christophers has demonstrated that malaria in the Andamans is due to a species of mosquito *A. fovealis* which breeds in the brackish water of the creeks and that the mosquitoes infesting the rice-fields in the neighbourhood are innocuous.
- (7) Substituting the initial expense, these anti-malarial measures should be shown which will not automatically, to independent of public help and continued in their effects; those which require regular expenditure, constant attention or active co-operation on the part of the people, are, under present conditions, seldom directly effective.
- (8) The treatment of permanent collections of water is important whether it be achieved by (a) water filtration, through sieving of tanks and clearing of tanks, or (b) stocking with fish of proved utility as mosquito destroyers, or by both methods.

19. The Government of India have arranged since for systematic in practical malaria work twice a year. The work has been planned that each member of the staff takes an actual part in the preparation of a malaria survey which will eventually be the basis of a practical scheme of malaria prevention. Already 150 medical officers in civil and military employ have passed through the scheme. It is hoped before long to spread a large number of trained and active workers over the whole of India.

The Lushington-Bastley Commission recommended that a zoologist and engineer should be deputed to Italy to study the methods of "mosquito" and "mosquito" under the auspices of the Italian Research Fund Association, and it is hoped to arrange for their departure. The effect of all depends on the material conditions of malaria in India, a also existing conditions and breeding experiments are being conducted by the Government of Bengal at Port Blair. Experiments in clearing jungle and undergrowth will shortly be undertaken.

20. The Hygiene Research Commission, which was constituted in 1910 and is still continuing its investigations, has thrown much light on the etiology and epidemiology of the disease. The chief conclusions that have been reached so far may be summarized as follows:—

- (1) In India, where the parasitic form of the disease is relatively rare, plague is essentially a disease of the commensal form of the disease and a few of the lower animals; its epidemic amongst man is directly dependent upon an epidemic amongst rats.

A. B. S. A.

- (2) Plague spreads from rat to rat and from rat to man through the agency of the rat flea.
- (3) The plague bacillus under natural conditions does not long retain its virility outside the body of the rat, the rat flea, or man.
- (4) Plague has a definite seasonal prevalence, generally constant for any given place, but varying in different parts of India; investigation shows that the plague season coincides with the season of maximum prevalence of rat flea.
- (5) Infection is carried from place to place only over very short distances by the spontaneous movement of rats. In other cases, infection is carried either (a) by the agency of man or personal effects acting as a means of transport for infected fleas, or (b) by means of merchandise, chiefly grain, which may include rats as well as straw. It is not yet established which of these two agencies is the more important, but recent work, both in India and the Far East, has emphasized the importance of grain as a vehicle for the transmission of infection.
- (6) In comparatively few places in India does plague infection survive the adverse conditions of the non-epidemic season: such places are usually either (a) large towns, or (b) places which have been infected late in the epidemic season.
- (7) In places which have suffered from repeated and severe epidemics of plague, the rats have become less susceptible to plague than are the rats in places which have remained plague-free or have suffered but slightly.

12. These conclusions have been arrived at after much careful and painstaking research and constitute a great advance on the knowledge of plague, which was available when, in 1915, it first appeared in Bombay. They point, apparently, to a simple solution of the plague problem—as rats and plague. But this solution is not available unless the population concerned is convinced of the danger of living in close association with the rat and is able to co-operate in its extermination. Unfortunately, attempts at rat destruction by trapping or poison frequently meet with active opposition. Experience in India suggests that owing to the enormous fecundity of the animals, general rat destruction, even when applied in extensive areas, gives only a temporary reduction of rat infestation and has a limited sphere of usefulness as a non-plague measure.

13. In one direction, however, well directed efforts at rat destruction may prove useful. In such epidemic a number of places are infected late in the season and it is certain that plague survives the non-epidemic period only in local hot spots in a few places from where the conditions of spread again become more favourable. These localities are potential foci of extensive infection. It would seem important to concentrate the energies of the plague preventive staff on them, in well-regulated schemes of rat destruction carried out during the quiescent period before the commencement of the next epidemic season.

14. Much can be done, indirectly, to reduce the number of rats in towns and villages, by diminishing their food-supply. In any place the number of rats is in proportion to the quantity of food which they can obtain. Efficient scavenging and the protection of food-stuffs from the depredations of rats are important from this point of view. The markets, grain stores, and shops, in most parts of India, are so placed and constructed as to give food and shelter to large numbers of rats. Experiments are being carried out with a view to discovering the best practical means of diminishing grain stores and godowns. It is not practicable at present to remove grain warehouses and godowns outside towns, to prevent them from being used as dwellings for men, to match or add masonry buildings, or to prohibit the stacking of houses and walls in the precincts of dwelling houses. But these measures and the storage of grain in bulk instead of in bags may, with the progress of sanitation, considerably reduce the mass of foodstuffs. The avoidance of rats from houses is important. In several promising experiments with different types of so-called rat-proof houses have been made with varying degrees of success. The results suggest that no form of house could possibly rat-proof for long in India owing to the habits of the people. Even were this not the case it would obviously be impracticable, for financial reasons, to render dwelling houses in the towns and villages of India rat-proof in anything like a large scale. On the other hand, the individual can protect himself by providing his house with masonry floors and walls and windows enough to give ample light and air in every room and by preventing accumulations of rubbish amongst which rats can build their nests. The rat requires shelter for breeding, is usually attracted to its habit and prefers darkness to light.

15. These other measures appear to be considered—expensive, disinfectant inoculation. The vaccination of all houses is large towns, on the occurrence of rat mortality there or human plague cases in adjacent localities, is hardly possible, but in villages and parts of smaller towns it is a valuable means of checking an epidemic of plague. Disinfection is of obvious use should be directed against the rat and the rat flea. It is of little value when it leaves both untouched. The provision of disinfectant to compulsory incinerations with anti-plague vaccine on a large scale remains; but the safety and efficacy of disinfection as a general preventive measure against infection has been repeatedly proved, and in certain cases the prejudice against its use is being disappearing. The Government of India desire that every locality should be advised to use any suitable disinfectant for the protection of himself or his family and they recommend to local Governments the employment of carefully selected persons—preferably to this end.

16. Cholera is now much less prevalent than formerly, but frequently causes severe epidemics and still remains a constant cause of mortality. Epidemics have been traced in several cases which had been so frequent outbreaks of the disease. In 1913, Major Glegg was deputed to make a special investigation of the whole subject. That investigation, which still continues, has added to knowledge regarding the propagation of cholera and has established the fact that not only are "carriers" of the disease. It has also been shown that the germs of the disease can be recovered from a patient's faeces kept under satisfactory conditions for a variable but frequently considerable period, while in no way apparent to prevent knowledge that cholera is a water-borne disease, accurate the importance of careful and thorough housework.

28. Small-pox is not a tropical disease, but it used to be so (it is India as to be associated among Hindoos with its own special goddess. It now occupies a small place in the mortality returns. The death is due to the spread of vaccination during the latter half of the last century.

Recently, nearly all vaccination was effected by human lymph, but within recent past anti-toxin vaccination has been steadily replaced by the use of pure glycerinated or lactinated calf lymph. The change has been doubly beneficial, it does away with the accounts of breaking the "cattle in the child's arm," a single operation but one which exposed the wound to contamination, by antitoxin serum; and it ensures that the vaccination is effected with a pure and fully potent lymph with consequent increase of protection. The change has been especially welcomed by educated Indians. Madras, Bombay, Bengal, Bassein, the United Provinces, the Punjab, the Central Provinces and Assam have each now their own calf lymph depots, and the opening of another for the province of Bihar and Orissa is under consideration. Lists of the 1,046,688 (421,335) were given from Imperial revision last year to suppress the depots in the United Provinces, the Punjab and Bassein and to establish the new depot in the Central Provinces.

29. The prevalence of tuberculosis throughout India, especially in the large cities is undoubtedly. In some of the latter, the mortality exceeds that of certain dreaded diseases. The distinction of saying with the disease in India are prominent and demand the fullest co-operation between Government and private agency. The co-operation will be detailed to investigate the causes underlying the disease, or, especially the diffusion of tuberculosis, and to advise regarding measures for the prevention of infection; the service of Dr. Lushmore have already been secured by the Indian Research Fund Association for this purpose. Recent research appears to show that tuberculosis in India is chiefly human and not bovine in origin. Indian cattle as far as is known are practically free from the disease, and Indians do not as a rule drink unboiled milk. The source of the disease is in the human body, and the relief of unobstructed access and the provision of sufficient light and air to human tenements are preventive measures of great value. The Government of India have attention to the recommendations of the Lushmore Sanitary Conference that disinfection should be carried before building at small scale as further large numbers. They consider that insanitary buildings suitable as model dwellings for the people may prove of great alternative value and they desire to encourage tuberculosis hospitals and dispensaries. They also take this opportunity of recommending the warning of the Lushmore Conference against the Indian methods of use of tuberculin by unqualified medical practitioners.

30. No necessity of public health is complete without a reference to infant mortality. In 1911, of 4,712,132 male children and 4,457,451 females born in India, 2,046,823 males and 1,875,617 females died. In other words, about one-fifth of the children born died within the first year of their life. It is difficult to arrive at the actual cause of this high rate of mortality. The figures at the disposal of Government are of doubtful accuracy, and the comparison of figures from different localities is frequently fallacious. On a broad view of the subject the causes of infant mortality may thus be summarized: (1) malnutrition during life directly on the infant and indirectly through the mother; (2) disease due to infectious micro-organisms and exposure to infection especially through the medium of flies; (3) disease due to germs on the part of the mother, with regard to the feeding and care of the infant; (4) accidents of child birth and disease attended therewith. For (1) and (2) the cause of early mortality and the preventive and remedial methods of mortality are largely responsible. The latter lead directly to the death of the infant from infection and other diseases, and indirectly increase the infant mortality by depriving children of their natural nourishment either through the death of the mother or the failure of her milk as the result of sepsis. Deficiency in the supply of cow's milk has not been proved to be a predominant cause of infant mortality in India; but the question of improving both the quality and the quantity of the milk supply without increasing its cost is engaging serious attention (vide paragraph 42).

It is hoped that the instruction of mothers and midwives will engage the attention of all medical women practising in India and especially interest the women's medical service which has recently been established. In some of the large cities in India, namely Calcutta, Bombay, and Madras, some health visitors have been appointed by associations to visit the people in their houses and report on infant mortality in the domestic group to the hygienic. In Bombay, an interesting experiment has been started by Dr. Turner in the form of lectures to the midwives. Another is likely to be made under the auspices of the Indian Research Fund Association in Delhi, where it is proposed to start two trained nurses for work as health visitors.

31. The cause of sanitary reform is much impeded by the want of complete and accurate vital statistics. Without them it is difficult to gauge the effects of sanitary measures or to convince people of their efficacy. The difficulties in the way of improving the reporting and recording agency especially in rural areas are great; but systematic thinking and supervision of returns should yield good results. Dispensary returns and voluntary notification by private medical practitioners are useful as checks but are only partial in their scope. A comprehensive scheme for the improvement of general reporting is required. The Government of India invite the attention of local Governments to the importance of the subject.

32. The Government of India recognize that difficulties in local conditions preclude the issue of any general instructions but they commend the following propositions for consideration:—

(a) The reporting of vital occurrences should not be left exclusively to the municipal staff; reporting by the head of the household also should be insisted on. The two reports would then be available to check one another.

(b) The actual registration should be done not as an extra duty but by special registers who should, if possible, possess a medical qualification. In the case of deaths, inquiries regarding the symptoms of the deceased could then be made from the person reporting and some check on the diagnosis of the cause of death could be obtained. Many people are attended during their last illness by unqualified persons or die without medical attendance.

SP. Driveway slabs, as indicated, are the basis of all parking improvements in parking areas.

Dr. Jennings said that studies from the town of Allendale, Maryland, showed that the use of readily-improvable water in urban areas is a very important factor in the development of the area. He said that the use of water that is not of good quality and is steadily increasing in quantity is a very important factor in the development of the area. He said that the use of water that is not of good quality and is steadily increasing in quantity is a very important factor in the development of the area.

28. When feeding schemes on m-DNA lines were first started in this country there seems to have been a bias against the use of several sets, whereas generally open 4 or 5 are adopted. Experience has shown that the confusion for the open 4, and the fact that several would give far more suitable, were not well-founded. On the other hand, some of the 4's and 5's do driftings which a 3-set of only open circles are said, as the evidence of level changes indicates to be constant. Moreover, economy in establishment is possible only to the use of a reference station.

20 The Government of India desires to invite the attention of local Governments to the importance of providing adequate facilities for the collection of small donations for the relief of the poor.

The inclusion of individuals suffering from self-esteem disorders is a less desirable and sometimes necessary, and it would even be desirable to have in every hospital a multiplicity of small well-built segregation hospital in charge of a qualified medical practitioner, who might be one of the medical residents for this category.

A revised set of regulations under the Indian Farm Act for the prevention of the spread of infectious and communicable diseases is under consideration.

40. Pilgrimage centering as they do the collection of large numbers of persons, often more than a million, at one place at one time have an important secondary aspect, namely in connection with chaos (see paragraph 34) and other common site diseases.

[illegible]

41. The sale and use of food and drugs is common and has an important bearing on public health. Provisions for dealing with adulterations of foodstuffs exist in most municipal enactments in India, but these are confined to municipal areas and are more or less

with the question. Douglas and the United Provinces have special laws dealing with the question. The Government of India have recently acquired from local Governments as to the desirability of legislation, imperial or provincial, on the subject. The question is a difficult one from a technical point of view. It is a question of the necessity of fixing standards, a competent staff of analysts and inspectors is necessary, and how to put together the machinery of the public concerned.

42. The adulteration of milk is almost universal in Indian houses and a large proportion of the milk consumed is contaminated. In most cities the milk supply at its source is free from any gross taint of the elements of sanitation and added to maintain purity. Moreover, the milk which is stored and its transit to market is held to contamination at several ways. On the other hand, the price of milk is already very high and the problem of improving the purity of the supply without increasing the price to such an extent as to make it unaffordable to the poorer classes is a difficult one.

The Lockhart survey emphasises co-operation with the large employers in the heavy industry sector, the government, the management and sale of wealth skillfully, provide measures of a more permanent; and that there should be mutual help and co-operation between engineers, machine-makers and the agricultural department. This department is already working hard to foster a quick delivery of food, a process largely dependent on suitable and regular feeding. While local authorities should assist in the distribution of the food in the most efficient manner, it is also urged, and every position in the agricultural sector, as illustrated in the report, the government is to be in a position to supply food, and to assist in the distribution of food, and to assist in the distribution of food. The main aim of the survey is to ensure that the food supply is adequate for the needs of the population, and that the food supply is adequate for the needs of the population, and that the food supply is adequate for the needs of the population.

drawings provided for the accommodation of the poorer classes. The Calcutta Improvement Trust commenced in 1911 its new developing scheme wherein for the improvement and development of Calcutta. Funds for these great projects have been provided mainly from local taxation and municipal contributions, supplemented in the case of such city by an Imperial grant of Rs. 50 lakhs (£12,500) and, in the case of Calcutta, by a recurring grant of Rs. 14 lakhs (£3,500) for 40 years. In other provinces, similar works have been carried out on a similar scale in the larger towns, notably in the United Provinces and at Lucknow.

There has been, on a strictly rural, an increasing desire on the part of the well-to-do in India to escape from their present insecure surroundings and to obtain homes in more permanent and secure city towns. In India, as in England, competition is stimulated by the difficulty of obtaining land for town extension except on prohibitive cost. The multiplicity of small owners in the country, and the impossibility of providing them to incorporate, render any coordinated and comprehensive plan of town extension impossible in the sphere of some outlying and semi-rural authority armed with powers of compulsory purchase. In this sense of 1910 July 1912, the Government of India indicated their opinion that where land on the outskirts of a town was mainly agricultural and could be acquired cheaply to live, the local body would probably be well advised to purchase it outright.

65. Such a policy, however, with the financial means, was impossible on a large scale. Where the cost of acquisition is prohibitive, control may be preferable to acquisition, and is their valuable letter of the 10th July 1912 the Government of India drew attention to the features of a scheme under discussion in the Bombay Presidency which has now been incorporated in a Town Planning Bill. The principal feature of this scheme is that the cost of acquisition is recovered from the urban portion and interests concerned in the shape of a development contribution levied in proportion to the assessed value which is estimated in some plan on the completion of the scheme, the tax that can be levied from any one owner being limited, as in England, to one-half of the interest attached to a house. The local body retains title for any estate not covered by the tax, but a scheme involves taking powers to purchase and redevelop small holdings in a form suitable for building purposes. It has the advantage of raising capital early while working for public purposes which is the profit of the Government. The Government of India have also invited an examination of the provisions of municipal acts for dealing with boundary areas and have required whether the functions assigned in the English Housing Act to executive committees in towns, which, after due inquiry, have been declared necessary, might not be introduced in India. The first step towards improvement is to fix a standard of light and ventilation suitable to local conditions; the next is to ensure that a separate building regulations providing for this standard are introduced by all municipal bodies and that a competent executive staff is appointed with full powers to carry them out. The whole question will be reviewed when the report of local Governments has been received.

66. The difficulties which increased rural sanitation in India are well-known and persistent. Sanitation. Contaminated water, polluted water supply, badly constructed and insanitary dwellings, the habits and prejudices of the people raise obstacles to progress which in most provinces are still well-nigh insuperable. The Government of India have informed local Governments that they are at liberty to demand a portion of the Imperial grants for urban sanitation on rural sanitation, provided proper reasons for the purpose are forthcoming, but they have postponed special Imperial grants for the purpose until such extent has been generally achieved. They fully appreciate the excessive importance of rural sanitation in a country which is merely agricultural. Past experience and present conditions, however, indicate that the subject is still new for experiment. It is better observed to attract the co-operation of the people. Without their aid, help an authority will find it very difficult to deal with the village sanitation of the two hundred and twenty million who inhabit rural areas in British India. The danger of employing low-paid and uneducated labour in sanitation is a matter as closely affecting village life is now generally recognized and should never be out of mind.

67. The following observations are based on personal experience of rural sanitation:—

- (a) Sanitary dispensaries may be used to spread a knowledge of the simple facts regarding the more common diseases. For this purpose the educational suggestion in charge should be given a special training in hygiene. Once they become known to the people as holders of the work, their advice as sanitation may become as irresistible.
- (b) The improvement of the village water-supply is as important as it is difficult. Apparently, excellent results have been obtained by distribution of wells with permanent and public. Experiments are being made in different parts of India in the use of sub-surface pits. It might serve as an useful object lesson in new pumps and tube-wells for the provision of water at fairs, schools, hospitals and local public works. In some localities, a tank supply alone is possible and the difficulty is to protect area from contamination.
- (c) In several provinces, notably in Madras, village artisans, or *chitras* have been formed and their rural offices entrusted with small grants for the improvement of the sanitation of the village site. This measure might be extended experimentally elsewhere. It is calculated to encourage discussion and inquiry regarding sanitary work.
- (d) Village sanitation, in some districts, encouraged by small grants of money and rewards to attract the head-quarters hospital for a short stay supply means of treatment. These measures open up possibilities with reference to a rotating or itinerant sanitary and children's disease generally.
- (e) In most districts in India, the civil surgeon is also the theory the sanitary officer of the district. His duties at headquarters, however, do not allow him to visit and inspect in the district in the extent that is necessary; even in the case of epidemics in the district it is sometimes not possible for him to leave headquarters. In some provinces, district sanitary officers have been appointed and there can be little doubt that many more such appointments are required and that one of the most urgent and hopeful measures for promoting rural sanitation is the appointment of well-qualified and whole-time district health officers to control and organize all sanitary arrangements and experiments in the district.

47. The diffusion of sound education will, however, remove the great physical and preserving influences of sanitation among a population which still views it for the most part with hostility, or unconcern. The desire of hygiene as part of their educational policy was acquired by the Government of India in their educational resolution of the 21st February 1912. It may be hoped that before many years have passed, soundness of mind will have become synonymous of soundness of body, and that the simple knowledge of the more common infectious diseases may with advantage be diffused. The diffusion of any considerable and systematic education is required. The Indian branch of the St. John Ambulance Association has offered its valuable services. In normal processes, physical defects are distributed and simple lecture lectures and demonstrations are given at home and other large gatherings, while in Bombay popular lectures to teachers, students and others have been organized by Major Goss Linton. The Indian Kermack Ford Association has decided to establish a central bureau where lectures and lecture slides, pictures, and skeleton lectures can be studied by means of lanterns. Much may be done by utilizing the services of municipal health officers and medical substantiated attached to travelling dispensaries and by inducing the sympathetic and active help of medical women, private medical practitioners, and private philanthropic agencies and persons. Sanitation must begin at home and as the Hon'ble Sir Parley Linton and Colonel Forth, the former on the staff, the latter on the military side have pointed out, there will never be any real advance in domestic or personal hygiene until the worst of the country makes its own progress and necessity. The encouragement of medical women to preach the gospel of health needs the co-operation and to organize parish parties for simple lecture demonstration lectures and the employment of native women as in Delhi, Calcutta, Madras and Bombay, will be successful. Periodical local conferences and publications similar to that recently issued by the Bombay Government entitled "Some recent sanitary developments in the Bombay Presidency" are very useful and keep the question of sanitation before the public mind. Other methods for preparing people to combat preventable diseases and resistant mortality may suggest themselves. There is room for many workers in the sanitary field. The Governor General in Council appeals with confidence to all who have interest in the well-being of India to join with him and the local Governments in a combined endeavor to give effect to His Imperial Majesty's most gracious wish that the homes of His Indian subjects may be brightened and their labour sweetened by the spread of knowledge with all that follows in its train, a higher level of thought, of comfort and of health.

W. FRASER,

As Secretary to Government.

Services:

First Examinations in Teachers' Certificates, 1913.—Supplemental list of candidates passed and failed Government Teachers' Examinations, April 1914.—Candidates passed in Type-writing, Intermediate Grade.

NOTIFICATIONS BY GOVERNMENT.

APPOINTMENTS.

Order-in-Council, June 2, 1914.

No. 14.—In exercise of the power conferred by section 10 of the Indian Universities Act, 1904 (Act VIII of 1904), the Chancellor of the University of Madras is pleased to appoint the Hon'ble Mr. Justice John Edward Power Walker to be an Ordinary Fellow of the University of Madras.

No. 15.—Under section 8 of the Madras University Act, 1907, His Excellency the Governor in Council has been pleased to appoint the Hon'ble Mr. Justice John Edward Power Walker to be Vice-Chancellor of the University of Madras.

Order-in-Council, June 2, 1914.

No. 16.—Mr. Rudolph Herold Stubbs, Acting Additional Professor of History, Presidency College, is set as Principal, Ramakrishna College, during the absence of Mr. J. A. Yates, as here or until further orders.

No. 17.—Mr. D. R. M. A. Choudhry, is set as Additional Professor of History, Presidency College, is the Indian Educational Service, during the absence of Mr. R. M. Stubbs on other duty or until further orders.

NOTIFICATIONS.

Calcutta, June 5, 1914.

No. 20.—Mr. Reginald Arden Nelson, B.A., LL.B., having resigned his office as an Ordinary Fellow of the Madras University with effect from 30th May 1914, becomes an Honorary Fellow under Section 29 (1), clause (5) of the Indian Universities Act, 1904 (Act VIII of 1904).

Calcutta, June 5, 1914.

No. 21.—The following notification of the Government of India is republished:—

DEPARTMENT OF EDUCATION.

BOMBAY.

Bombay, the 29th May 1914.

No. 22.—The following Order of His Majesty in Council for varying the provisions of the Order in Council of the 26th February 1913 published in the *London Gazette* of the 10th March 1913, is republished for general information:—

At the Court at Buckingham Palace.

The 26th day of March 1914.

Present:

The King's Most Excellent Majesty in Council.

Whereas His Majesty, by virtue of the authority conferred upon Him by the Copyright Act, 1911, was pleased to make an Order in Council, dated the 26th day of February 1913, varying as far as they relate to works of which the ownership of rights is Indian, the provisions of Article 2, *Proviso* (1), of the Order in Council therein referred to as the Principal Order;

And whereas it is expedient that Article 2 of the said first mentioned order should be varied;

Now, therefore, His Majesty, by and with the advice of His Privy Council, and by virtue of the authority conferred upon Him by the Copyright Act, 1911, is pleased to order and it is hereby ordered, as follows:

1. Article 2 of the said order shall be varied by striking therefrom the words "and the first day of July 1914, for the first day of July, 1913," and the Article shall take effect as if those words had not been inserted therein.

2. The order shall come into operation on the first day of April 1914.

And the Lords Commissioners of His Majesty's Treasury are to give the necessary orders accordingly.

ALFRED FRISVOLD.

W. FRANCIS.

Sg. Secretary to Government.

MISCELLANEOUS NOTIFICATIONS.

LEAVE AND APPOINTMENTS.

The Director is pleased to grant privilege leave on full salary for two months and fifteen days with effect from the 1st of his relief to M.R.R. Y. Jagannath Pantulu, Sub-Assistant Inspector, Gadagur Range, acting in the Telukhal Range (Temporary), and to appoint M.R.R. H. Subbaramayya Pantulu, Supervisor of Elementary Schools, acting Sub-Assistant Inspector, Maravikonda Range, as Acting Sub-Assistant Inspector, Telukhal Range, during the absence of the former on leave or until further orders—*in toto* or *in part*.

Office of the Director of Public Instruction,
Madras, 2nd June 1914.

J. H. STONE,
Sg. Director of Public Instruction.

APPOINTMENT.

Mrs E. M. Sivar, Post Assistant, Government Secondary Girls' School, Channarayana, and Acting Sub-Assistant Inspector of Schools, Telukhal Range (Temporary), Range, to act with effect from 15th May 1914 in the first class during the absence of Mrs E. M. Sivar, Sub-Assistant Inspector at Girls' School, Channarayana Girls' Range, on leave or until further orders.

Office of the Director of Public Instruction,
Madras, 2nd June 1914.

J. H. STONE,
Sg. Director of Public Instruction.

NOTIFICATION.

In the list of increased duties or notes given in rule 13 of the Government Code, the following name shall be added:—

The name "Pondicherry" after the name "Pondicherry."

Office of the Director of Public Instruction,
Madras, 2nd June 1914.

J. H. STONE,
Sg. Director of Public Instruction.

MADRAS COLLEGE FOR WOMEN.

The Government intend to open a college for women early in July.

The head of the college will be an English lady of high educational qualifications and she will be assisted by a competent staff. The aim of the college will be to advance in the widest sense of the term, and the Principal and staff will exercise watchful care over the moral and physical welfare of the students.

Teaching will be provided at the college up to the standard of group III in the Intermediate Examination of the University, and arrangements will be made for students desiring to take either of the other groups attending the Presidency College for the subjects of Part III.

Students will be admitted who desire to continue their education beyond the high school standard even if they do not wish to prepare for any University or other examination.

The college will be located for the present in the Upper House on the Marine.

The college will be an day as practicable residential. Hostel arrangements will be provided at reasonable rates, due attention being paid to the requirements of students of different castes.

College fees will be for the long term No. 11-3-6 and for the short term No. 16-3-6 and there will cover any services taken in the Presidency College.

It is not possible at this stage to specify the rules for hostel accommodation, but these will not prevent those desiring to reside in institutions in Madras.

Government scholarships will be tenable at the college.

Applications for admission should be addressed without delay to the Director of Public Instruction, Old College, Nungambakam, Madras.

They should give the full name, age, caste or creed of the applicant, information as to previous education (if possible a secondary school-leaving certificate should be attached) and the course of study desired. If this is for the Intermediate examination the group chosen should be stated with the language for Part I and the subjects for Part III if group III is chosen.

Applications should be signed by a parent or guardian who should indicate his official position or social status.

Office of the Director of Public Instruction,
Madras. 24th June 1914.

J. R. STONE,
Ap. Director of Public Instruction.

GOVERNMENT EXAMINATIONS.

GOVERNMENT TECHNICAL EXAMINATIONS—JUNE 1914.

Candidates for the examinations in Minor Secondary Engineering (Intermediate Grade) to be held in June next are informed that they will have to sit for the Written examination at the Marine House, Chepst, Madras. The Written examination will be conducted as shown in the following table:—

Day.	Time.	Subject.
1914. Wednesday, 17th June.	11 a.m. to 1 p.m.	Minor Secondary Engineering (Inter-mediate Grade).

3. The following arrangements have been made for the conduct of the Practical and viva voce examinations:—

Days with dates.	Subject.	Grade of examination.	Hours of examination, start of examination.	Attestation of result to be made by.	Place of examination.
------------------	----------	-----------------------	---	--------------------------------------	-----------------------

FOR 316 CANDIDATES.

At Madras.

1914. Thursday, 19th June, Friday, 20th June and Saturday, 21st June.	Minor Secondary Engineering.	Intermediate.	10-4 a.m.	74	Office of the Secondary Engineer in Government, Chepst.
--	------------------------------	---------------	-----------	----	---

4. Candidates should bring with them to the examination room the set-squares, drawing instruments and scales used by them in the class room.

5. Candidates are informed that a copy of the printed list will be posted at the entrance to the examination hall on Monday the 22nd June 1914 and that they will be expected to learn their personal numbers from this list.

6. Attention is drawn to the following rules:—

(1) No candidate will be allowed to enter the examination room unless he wears a clean and decent dress, and, in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination room.

(2) No candidate will be allowed to quit the examination room in any way until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates entering after the expiration of that half hour will not be admitted.

(3) No candidate will be allowed to re-enter the examination room during the hours of examination after once quitting it, nor to leave the room without finally giving up his answer paper.

(4) Any candidate detected in speaking to, or in any way communicating with, any other candidate will be at once removed from the room, and the circumstances reported to the Commissioner.

(5) Any candidate suspected of having had access to any kind of book or paper in answer to the examination, and who is detected, shall be removed from the examination room, and the circumstances reported to the Commissioner for such term of years as the Commissioner may think fit; or, if the Commissioner is not satisfied for any reason whatever as to the truthfulness of his report, he may be reported to undergo a re-examination at some future date to be fixed by the Commissioner to try out or test the ability of the candidate for which he appeared, his answer or failure being determined in the case of each re-examination.

(6) No candidate will, on any account, be allowed to take into the examination room, ink, nibs, pencils, ruled paper, scales, ruler, or papers of any kind. Any candidate detected in the violation of this rule or having written in any tablet, notebook, or other writing, will be removed from the room and the circumstances reported to the Commissioner. Candidates will, however, be allowed the use of mathematical instruments for drawing figures or solving lines.

(7) Candidates whose names are not in the printed list furnished to the Superintendent must submit a written declaration through the Superintendent, giving full particulars in regard to themselves including their address and furnish such evidence as may be possible of their having applied for admission to the examination at the proper time and paid the prescribed fee. The answer papers of such candidates will not be valued unless it is clear that the names of their names is due to no fault of theirs.

(8) A candidate having completed his paper will rise from his seat and remain standing until the Superintendent takes his answer papers. Any candidate wishing to ask any question of the Superintendent will present the same matter, but will, on no account, leave his place.

(9) Any answer paper sent up without the candidate's name and number affixed will not be valued. The answer papers and drawings should be attached or joined together at the upper left-hand corner, and the whole folded as now, (imagine the sheet crumpled into four). The place of examination and the name of the candidate should be written and clearly by the candidate on the top right-hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

(10) Candidates will not be allowed to take any papers, except their question papers, out of the examination room.

(11) Candidates are forbidden to tear up papers or to throw ink or papers on the floor. All "quill-pens, etc.," should be left on the desk where the candidate has been writing.

(By order.)

Office of the Comm. for Govt. Examinations,
Madras, 25th May 1904.

G. MADDOX,
Secretary.

SPECIAL TEST EXAMINATIONS, OCTOBER 1904.

Special Test (HINDI AND LOWER GRADERS)—HINDI AND TALKS ACCOUNTS
AND THE SPECIAL PAPER CODE.

It is hereby notified that the examination is the "Hindi and Talks Accounts" will be held on the 10th day of the month of October 1904.

(By order.)

Office of the Comm. for Govt. Examinations,
Madras, 25th June 1904.

G. MADDOX,
Secretary.

UNIVERSITY OF MADRAS.

With reference to the Ordinary University Examinations under Regulation 395 sanctioned by the Senate for the Academic year 1904-1905, it is hereby notified, that the following courses of lectures will be delivered as given below:—

Name of lecturer.	Subject of lecture.	Number of lectures.	Name of delivery.	Date of commencement of lectures.	Days and hours of delivery.
B. F. Goudall, Esq., M.A., D.Litt.	Philosophical Evidence of the development of religion— with special reference to the English Vocabulary.	30 Lectures.	Nelson College.	26th July 1904.	Tuesday 8 a.m. to 9 a.m.
The Rev. A. Moffat, M.A., D.D., F.R.S.	The Development of Christianity in China.	25 Lectures.	Do.	11th do.	Thursday and Friday 6-10 a.m. Sermons 8 a.m. to 9 a.m.
J. K. Robinson, Esq., M.A., D.Litt.	Philosophical Evidence of the development of religion— with special reference to the English Vocabulary.	25 Lectures.	Small Theatre of the Museum.	11th do.	Thursday and Friday 6-10 a.m. Sermons 8 a.m. to 9 a.m.

The lectures will be open to any student who is taking an Honours Course in any College affiliated to the University, or the recommendation of the Principal of his College. No fee will be charged for the lectures for the term.

Persons other than those mentioned above may also attend the recommendation of the Lecturer and at the discretion of the Syndicate be admitted to the lectures.

(By order.)

Senate House, 25th May 1904.

F. DREWRY, M.A., D.Litt.,
Registrar.

MIDNIGHT SANITARY ENGINEERING CLASS.

A class for training candidates in Minor Sanitary Engineering will be held in the Office of the Secretary Engineer to Government, Madras, commencing from the 1st July 1914. The course will extend over a period of five months and the class will be limited to fifty students.

2. The fee for the course will be Rs. 25.

3. Applications for admission should be made in printed forms, which can be obtained from the office of the undersigned, and should be sent to the Secretary Engineer to Government, Chaperin, Madras, not later than 15th June 1914. Each application should be accompanied by a treasury receipt for Rs. 5 as a registration fee. In the case of those candidates not selected for admission this fee will be refunded. In the case of those who are selected the admission fee of Rs. 5 will be credited to the fee for the course and students will only be required to pay the balance Rs. 15.

4. The following classes of applicants are eligible for admission:—

(a) Those who have obtained complete Secondary School-Leaving certificates issued under the authority of Government showing that the candidates possess sufficient knowledge in the ordinary subjects and in two optional subjects other than Arithmetic and Typewriting.

(b) Those who have passed the Matriculation Examination of the University of Madras prior to 1910 or the Madras Upper Secondary Examination with English as first language.

(c) Those who produce evidence that they have attended for three years a High School situated outside the jurisdiction of the Department of Public Instruction in Madras but recognised by the University of Madras and who have passed the Matriculation Examination of the University of Madras.

(d) Those who have passed any of the examinations accepted by Government for the purpose of article 1 of the Public Service Commission.

Office of Secretary Engineer to Government,
Chaperin, Madras, 15th May 1914.

W. BUNTON,
Superintending Engineer,
Sanitary Engineer to Government.

APPLICATION FOR CARNATIC SCHOLARSHIP IN THE GOVERNMENT MADRAS COLLEGE, MADRAS

Under G.O. No. 532, dated 5th August 1903, of the Carnatic Scholarship notification, the following scholarships (each for one year) will be vacant on the 1st July 1914:—

	Number of students to whom.	Annual value of scholarship.
Upper Secondary Department	Nil	25.
Lower Secondary Department	15	10
Primary Department	10	5

2. These scholarships are open to poor and deserving Mahomedan boys. Preference, however, is given to the children of Carnatic stipendiaries.

3. All applications should reach the undersigned by the 30th June 1914 and should be in the following form. Printed forms of application can be had on application:—

Form of application for Carnatic scholarship.

1. Name of pupil.
2. Name of school from which the pupil applies for scholarship.
3. Age according to the school register.
4. Name of form to which the pupil is making.
5. Description of father or guardian with monthly income.
6. A certificate from the Headmaster as to the conduct, progress and previous attainments of the pupil.
7. Whether the candidate holds any scholarship, and if so, from what date and the name of scholarship.
8. Whether the candidate is the son of a political prisoner or in any way indebted to any, and if so, state the authority.

*This certificate should be attached if the pupil is not residing in the Government Madras College.

Signature,
Date.

Signature of father or guardian.

Govt. Madras College, Mount Road, Madras,
22nd May 1914.

G. W. MOORE,
Headmaster, Government Madras College.

HIS HIGHNESS THE MAHARAJA'S COLLEGE, TRIVANDRUM.

Notice to applicants for admission to Class III (Pass B.A. Course), Part I (English) and Part II (Mathematics, Physics, Chemistry, History and Economics, or Sanskrit and Malayalam), and to Class III (Honours B.A. Course) English or History and Economics.

Applicants should be sent in for the undersigned as soon as possible. Applicants should state their age, the College or Colleges in which they have studied, the year in which and the register to which an Honours' Course refers article 903 of the University Ordinance, the B.A. Degree Examination.

Details as to subjects and groups referred will be sent on application.

Trivandrum, 21st May 1914.

L. G. HODGSON,
Principal.

NOTICE.

The Teachers' College, Salispet, will re-open after the summer vacation on Monday, the 20th July 1914.

Teachers' College, Salispet,
20th May, 1914.

H. S. DUNCAN,
Principal.

VACANCIES.

SUPPLEMENT TO PART I-B

THE FORT ST. GEORGE GAZETTE.

No. 20.]

MADRAS, TUESDAY EVENING, JUNE 9, 1914.

[Part II, 8 p.m.]

GOVERNMENT EXAMINATIONS. GOVERNMENT TECHNICAL EXAMINATIONS, APRIL 1914.

TYPE-WRITING.

The following candidates, having satisfied the Examiners in the written test, have skill to undergo the Oral and Practical Examinations. Particulars as to the time and place at which the examinations will be held will be notified in Part I-B of the *Fort St. George Gazette* in due course. All other candidates for the *Intermediate* grade, all candidates, that is, whose names are not mentioned below wherever they may have been examined, will understand that, having failed in the written test, they will not be required to appear for the Oral and Practical Examinations.

Note 1.—A smaller list of candidates who have satisfied the examination in the written test with reference to the *Advanced* grade will be notified in the *Fort St. George Gazette* in due course.

Note 2.—Candidates will, if necessary, be examined in *English*, but at least every two candidates for the *Intermediate* grade must have one machine among them. For the *Advanced* grade, each candidate must bring one machine.

[N.B.—*Applications from unsuccessful candidates asking for information as to the cause of failure or for a re-examination of their answer-papers will not be attended to.*]

GENERAL NOTIFICATIONS.

TREASURE TROVE.

It is hereby notified, under section 5 of Act VI of 1878 that on the 19th October 1913 the treasure consisting of Rs. 25 whole rupees was found by Keshava Choudhary, Krishna Padhana, Magala Pandugrahi, Vagdeva Choudhary, Vagdeva Choudhary, Lakshma Babu and Karana Pandugrahi of Padaligi village, Baramati estate, Ishikilipura taluk, Goujan district, in a coconut rooted ground at the eastern end of the cemetery street of Padaligi.

All persons claiming the said treasure or part thereof are hereby required to appear in person or by duly authorized agent before the Collector of Shajapur on 1st September 1914 at 11 A.M. with a view to the claim being required into and determined according to law.

Shajapur Collector's Office, Shajapur,
27th March 1914.

M. MACHICHARIL,
Collector.

It is hereby notified, under section 5 of the Indian Treasure Trove Act VI of 1878, that in September 1913 certain coins of the total value of Rs. 10-3-0 were found by certain persons while digging at the foot of a coconut tree in S.N. 502 of Velimari village, Udipi taluk, South Canara District, in the Madras Presidency, belonging to the Malai Venkateswara temple in the Mangalore taluk.

All persons claiming the said treasure or any part thereof are hereby required to appear personally or by agent before the Collector of South Canara at his office at Mangalore at 3 p.m. on Monday, the 7th September 1914, in view to the matter being required into and determined according to law.

South Canara Collector's Office, Camp Rushanwar,
28th April 1914.

M. E. COUCHMAN,
Collector.

It is hereby notified, under section 5 of the Indian Treasure Trove Act VI of 1878, that on or about the 10th December 1912 treasure containing gold and silver jewelry and cash as detailed below, valued at Rs. 4,311-15-6, was found by Atavadi Venkateswaraiah while digging the dwelling house occupied by his son Chavala Nagamma at Chippayadu, Poodkote taluk, Chittoor district.

2. All persons claiming the said treasure are hereby required to appear personally or by agent before the Collector of Chittoor at his office at Chittoor on 28th October 1914 in view to the matter being required into and determined according to law.

District.	First period (July 1900 to June 1901).		Second period (July 1901 to June 1902).		Third period (July 1902 to June 1903).		Fourth period (July 1903 to June 1904).		Fifth period (July 1904 to June 1905).		Sixth period (July 1905 to June 1906).		Seventh period (July 1906 to June 1907).		Eighth period (July 1907 to June 1908).		Ninth period (July 1908 to June 1909).		Tenth period (July 1909 to June 1910).		Eleventh period (July 1910 to June 1911).		Twelfth period (July 1911 to June 1912).		Thirteenth period (July 1912 to June 1913).		Fourteenth period (July 1913 to June 1914).		Fifteenth period (July 1914 to June 1915).		Sixteenth period (July 1915 to June 1916).		Seventeenth period (July 1916 to June 1917).		Eighteenth period (July 1917 to June 1918).		Nineteenth period (July 1918 to June 1919).		Twentieth period (July 1919 to June 1920).		Twenty-first period (July 1920 to June 1921).		Twenty-second period (July 1921 to June 1922).		Twenty-third period (July 1922 to June 1923).		Twenty-fourth period (July 1923 to June 1924).		Twenty-fifth period (July 1924 to June 1925).		Twenty-sixth period (July 1925 to June 1926).		Twenty-seventh period (July 1926 to June 1927).		Twenty-eighth period (July 1927 to June 1928).		Twenty-ninth period (July 1928 to June 1929).		Thirtieth period (July 1929 to June 1930).		Thirty-first period (July 1930 to June 1931).		Thirty-second period (July 1931 to June 1932).		Thirty-third period (July 1932 to June 1933).		Thirty-fourth period (July 1933 to June 1934).		Thirty-fifth period (July 1934 to June 1935).		Thirty-sixth period (July 1935 to June 1936).		Thirty-seventh period (July 1936 to June 1937).		Thirty-eighth period (July 1937 to June 1938).		Thirty-ninth period (July 1938 to June 1939).		Fortieth period (July 1939 to June 1940).		Forty-first period (July 1940 to June 1941).		Forty-second period (July 1941 to June 1942).		Forty-third period (July 1942 to June 1943).		Forty-fourth period (July 1943 to June 1944).		Forty-fifth period (July 1944 to June 1945).		Forty-sixth period (July 1945 to June 1946).		Forty-seventh period (July 1946 to June 1947).		Forty-eighth period (July 1947 to June 1948).		Forty-ninth period (July 1948 to June 1949).		Fiftieth period (July 1949 to June 1950).		Fifty-first period (July 1950 to June 1951).		Fifty-second period (July 1951 to June 1952).		Fifty-third period (July 1952 to June 1953).		Fifty-fourth period (July 1953 to June 1954).		Fifty-fifth period (July 1954 to June 1955).		Fifty-sixth period (July 1955 to June 1956).		Fifty-seventh period (July 1956 to June 1957).		Fifty-eighth period (July 1957 to June 1958).		Fifty-ninth period (July 1958 to June 1959).		Sixtieth period (July 1959 to June 1960).		Sixty-first period (July 1960 to June 1961).		Sixty-second period (July 1961 to June 1962).		Sixty-third period (July 1962 to June 1963).		Sixty-fourth period (July 1963 to June 1964).		Sixty-fifth period (July 1964 to June 1965).		Sixty-sixth period (July 1965 to June 1966).		Sixty-seventh period (July 1966 to June 1967).		Sixty-eighth period (July 1967 to June 1968).		Sixty-ninth period (July 1968 to June 1969).		Seventieth period (July 1969 to June 1970).		Seventy-first period (July 1970 to June 1971).		Seventy-second period (July 1971 to June 1972).		Seventy-third period (July 1972 to June 1973).		Seventy-fourth period (July 1973 to June 1974).		Seventy-fifth period (July 1974 to June 1975).		Seventy-sixth period (July 1975 to June 1976).		Seventy-seventh period (July 1976 to June 1977).		Seventy-eighth period (July 1977 to June 1978).		Seventy-ninth period (July 1978 to June 1979).		Eightieth period (July 1979 to June 1980).		Eighty-first period (July 1980 to June 1981).		Eighty-second period (July 1981 to June 1982).		Eighty-third period (July 1982 to June 1983).		Eighty-fourth period (July 1983 to June 1984).		Eighty-fifth period (July 1984 to June 1985).		Eighty-sixth period (July 1985 to June 1986).		Eighty-seventh period (July 1986 to June 1987).		Eighty-eighth period (July 1987 to June 1988).		Eighty-ninth period (July 1988 to June 1989).		Ninetieth period (July 1989 to June 1990).		Ninety-first period (July 1990 to June 1991).		Ninety-second period (July 1991 to June 1992).		Ninety-third period (July 1992 to June 1993).		Ninety-fourth period (July 1993 to June 1994).		Ninety-fifth period (July 1994 to June 1995).		Ninety-sixth period (July 1995 to June 1996).		Ninety-seventh period (July 1996 to June 1997).		Ninety-eighth period (July 1997 to June 1998).		Ninety-ninth period (July 1998 to June 1999).		One hundredth period (July 1999 to June 2000).		One hundred and first period (July 2000 to June 2001).		One hundred and second period (July 2001 to June 2002).		One hundred and third period (July 2002 to June 2003).		One hundred and fourth period (July 2003 to June 2004).		One hundred and fifth period (July 2004 to June 2005).		One hundred and sixth period (July 2005 to June 2006).		One hundred and seventh period (July 2006 to June 2007).		One hundred and eighth period (July 2007 to June 2008).		One hundred and ninth period (July 2008 to June 2009).		One hundred and tenth period (July 2009 to June 2010).		One hundred and eleventh period (July 2010 to June 2011).		One hundred and twelfth period (July 2011 to June 2012).		One hundred and thirteenth period (July 2012 to June 2013).		One hundred and fourteenth period (July 2013 to June 2014).		One hundred and fifteenth period (July 2014 to June 2015).		One hundred and sixteenth period (July 2015 to June 2016).		One hundred and seventeenth period (July 2016 to June 2017).		One hundred and eighteenth period (July 2017 to June 2018).		One hundred and nineteenth period (July 2018 to June 2019).		One hundred and twentieth period (July 2019 to June 2020).		One hundred and twenty-first period (July 2020 to June 2021).		One hundred and twenty-second period (July 2021 to June 2022).		One hundred and twenty-third period (July 2022 to June 2023).		One hundred and twenty-fourth period (July 2023 to June 2024).		One hundred and twenty-fifth period (July 2024 to June 2025).		One hundred and twenty-sixth period (July 2025 to June 2026).		One hundred and twenty-seventh period (July 2026 to June 2027).		One hundred and twenty-eighth period (July 2027 to June 2028).		One hundred and twenty-ninth period (July 2028 to June 2029).		One hundred and thirtieth period (July 2029 to June 2030).		One hundred and thirty-first period (July 2030 to June 2031).		One hundred and thirty-second period (July 2031 to June 2032).		One hundred and thirty-third period (July 2032 to June 2033).		One hundred and thirty-fourth period (July 2033 to June 2034).		One hundred and thirty-fifth period (July 2034 to June 2035).		One hundred and thirty-sixth period (July 2035 to June 2036).		One hundred and thirty-seventh period (July 2036 to June 2037).		One hundred and thirty-eighth period (July 2037 to June 2038).		One hundred and thirty-ninth period (July 2038 to June 2039).		One hundred and fortieth period (July 2039 to June 2040).		One hundred and forty-first period (July 2040 to June 2041).		One hundred and forty-second period (July 2041 to June 2042).		One hundred and forty-third period (July 2042 to June 2043).		One hundred and forty-fourth period (July 2043 to June 2044).		One hundred and forty-fifth period (July 2044 to June 2045).		One hundred and forty-sixth period (July 2045 to June 2046).		One hundred and forty-seventh period (July 2046 to June 2047).		One hundred and forty-eighth period (July 2047 to June 2048).		One hundred and forty-ninth period (July 2048 to June 2049).		One hundred and fiftieth period (July 2049 to June 2050).		One hundred and fifty-first period (July 2050 to June 2051).		One hundred and fifty-second period (July 2051 to June 2052).		One hundred and fifty-third period (July 2052 to June 2053).		One hundred and fifty-fourth period (July 2053 to June 2054).		One hundred and fifty-fifth period (July 2054 to June 2055).		One hundred and fifty-sixth period (July 2055 to June 2056).		One hundred and fifty-seventh period (July 2056 to June 2057).		One hundred and fifty-eighth period (July 2057 to June 2058).		One hundred and fifty-ninth period (July 2058 to June 2059).		One hundred and sixtieth period (July 2059 to June 2060).		One hundred and sixty-first period (July 2060 to June 2061).		One hundred and sixty-second period (July 2061 to June 2062).		One hundred and sixty-third period (July 2062 to June 2063).		One hundred and sixty-fourth period (July 2063 to June 2064).		One hundred and sixty-fifth period (July 2064 to June 2065).		One hundred and sixty-sixth period (July 2065 to June 2066).		One hundred and sixty-seventh period (July 2066 to June 2067).		One hundred and sixty-eighth period (July 2067 to June 2068).		One hundred and sixty-ninth period (July 2068 to June 2069).		One hundred and seventieth period (July 2069 to June 2070).		One hundred and seventy-first period (July 2070 to June 2071).		One hundred and seventy-second period (July 2071 to June 2072).		One hundred and seventy-third period (July 2072 to June 2073).		One hundred and seventy-fourth period (July 2073 to June 2074).		One hundred and seventy-fifth period (July 2074 to June 2075).		One hundred and seventy-sixth period (July 2075 to June 2076).		One hundred and seventy-seventh period (July 2076 to June 2077).		One hundred and seventy-eighth period (July 2077 to June 2078).		One hundred and seventy-ninth period (July 2078 to June 2079).		One hundred and eightieth period (July 2079 to June 2080).		One hundred and eighty-first period (July 2080 to June 2081).		One hundred and eighty-second period (July 2081 to June 2082).		One hundred and eighty-third period (July 2082 to June 2083).		One hundred and eighty-fourth period (July 2083 to June 2084).		One hundred and eighty-fifth period (July 2084 to June 2085).		One hundred and eighty-sixth period (July 2085 to June 2086).		One hundred and eighty-seventh period (July 2086 to June 2087).		One hundred and eighty-eighth period (July 2087 to June 2088).		One hundred and eighty-ninth period (July 2088 to June 2089).		One hundred and ninetieth period (July 2089 to June 2090).		One hundred and ninety-first period (July 2090 to June 2091).		One hundred and ninety-second period (July 2091 to June 2092).		One hundred and ninety-third period (July 2092 to June 2093).		One hundred and ninety-fourth period (July 2093 to June 2094).		One hundred and ninety-fifth period (July 2094 to June 2095).		One hundred and ninety-sixth period (July 2095 to June 2096).		One hundred and ninety-seventh period (July 2096 to June 2097).		One hundred and ninety-eighth period (July 2097 to June 2098).		One hundred and ninety-ninth period (July 2098 to June 2099).		Two hundredth period (July 2099 to June 2100).		Two hundred and first period (July 2100 to June 2101).		Two hundred and second period (July 2101 to June 2102).		Two hundred and third period (July 2102 to June 2103).		Two hundred and fourth period (July 2103 to June 2104).		Two hundred and fifth period (July 2104 to June 2105).		Two hundred and sixth period (July 2105 to June 2106).		Two hundred and seventh period (July 2106 to June 2107).		Two hundred and eighth period (July 2107 to June 2108).		Two hundred and ninth period (July 2108 to June 2109).		Two hundred and tenth period (July 2109 to June 2110).		Two hundred and eleventh period (July 2110 to June 2111).		Two hundred and twelfth period (July 2111 to June 2112).		Two hundred and thirteenth period (July 2112 to June 2113).		Two hundred and fourteenth period (July 2113 to June 2114).		Two hundred and fifteenth period (July 2114 to June 2115).		Two hundred and sixteenth period (July 2115 to June 2116).		Two hundred and seventeenth period (July 2116 to June 2117).		Two hundred and eighteenth period (July 2117 to June 2118).		Two hundred and nineteenth period (July 2118 to June 2119).		Two hundred and twentieth period (July 2119 to June 2120).		Two hundred and twenty-first period (July 2120 to June 2121).		Two hundred and twenty-second period (July 2121 to June 2122).		Two hundred and twenty-third period (July 2122 to June 2123).		Two hundred and twenty-fourth period (July 2123 to June 2124).		Two hundred and twenty-fifth period (July 2124 to June 2125).		Two hundred and twenty-sixth period (July 2125 to June 2126).		Two hundred and twenty-seventh period (July 2126 to June 2127).		Two hundred and twenty-eighth period (July 2127 to June 2128).		Two hundred and twenty-ninth period (July 2128 to June 2129).		Two hundred and thirtieth period (July 2129 to June 2130).		Two hundred and thirty-first period (July 2130 to June 2131).		Two hundred and thirty-second period (July 2131 to June 2132).		Two hundred and thirty-third period (July 2132 to June 2133).		Two hundred and thirty-fourth period (July 2133 to June 2134).		Two hundred and thirty-fifth period (July 2134 to June 2135).		Two hundred and thirty-sixth period (July 2135 to June 2136).		Two hundred and thirty-seventh period (July 2136 to June 2137).		Two hundred and thirty-eighth period (July 2137 to June 2138).		Two hundred and thirty-ninth period (July 2138 to June 2139).		Two hundred and fortieth period (July 2139 to June 2140).		Two hundred and forty-first period (July 2140 to June 2141).		Two hundred and forty-second period (July 2141 to June 2142).		Two hundred and forty-third period (July 2142 to June 2143).		Two hundred and forty-fourth period (July 2143 to June 2144).		Two hundred and forty-fifth period (July 2144 to June 2145).		Two hundred and forty-sixth period (July 2145 to June 2146).		Two hundred and forty-seventh period (July 2146 to June 2147).		Two hundred and forty-eighth period (July 2147 to June 2148).		Two hundred and forty-ninth period (July 2148 to June 2149).		Two hundred and fiftieth period (July 2149 to June 2150).		Two hundred and fifty-first period (July 2150 to June 2151).		Two hundred and fifty-second period (July 2151 to June 2152).		Two hundred and fifty-third period (July 2152 to June 2153).		Two hundred and fifty-fourth period (July 2153 to June 2154).		Two hundred and fifty-fifth period (July 2154 to June 2155).		Two hundred and fifty-sixth period (July 2155 to June 2156).		Two hundred and fifty-seventh period (July 2156 to June 2157).		Two hundred and fifty-eighth period (July 2157 to June 2158).		Two hundred and fifty-ninth period (July 2158 to June 2159).		Two hundred and sixtieth period (July 2159 to June 2160).		Two hundred and sixty-first period (July 2160 to June 2161).		Two hundred and sixty-second period (July 2161 to June 2162).		Two hundred and sixty-third period (July 2162 to June 2163).		Two hundred and sixty-fourth period (July 2163 to June 2164).		Two hundred and sixty-fifth period (July 2164 to June 2165).		Two hundred and sixty-sixth period (July 2165 to June 2166).		Two hundred and sixty-seventh period (July 2166 to June 2167).		Two hundred and sixty-eighth period (July 2167 to June 2168).		Two hundred and sixty-ninth period (July 2168 to June 2169).		Two hundred and seventieth period (July 2169 to June 2170).		Two hundred and seventy-first period (July 2170 to June 2171).		Two hundred and seventy-second period (July 2171 to June 2172).		Two hundred and seventy-third period (July 2172 to June 2173).		Two hundred and seventy-fourth period (July 2173 to June 2174).		Two hundred and seventy-fifth period (July 2174 to June 2175).		Two hundred and seventy-sixth period (July 2175 to June 2176).		Two hundred and seventy-seventh period (July 2176 to June 2177).		Two hundred and seventy-eighth period (July 2177 to June 2178).		Two hundred and seventy-ninth period (July 2178 to June 2179).		Two hundred and eightieth period (July 2179 to June 2180).		Two hundred and eighty-first period (July 2180 to June 2181).		Two hundred and eighty-second period (July 2181 to June 2182).		Two hundred and eighty-third period (July 2182 to June 2183).		Two hundred and eighty-fourth period (July 2183 to June 2184).		Two hundred and eighty-fifth period (July 2184 to June 2185).		Two hundred and eighty-sixth period (July 2185 to June 2186).		Two hundred and eighty-seventh period (July 2186 to June 2187).		Two hundred and eighty-eighth period (July 2187 to June 2188).		Two hundred and eighty-ninth period (July 2188 to June 2189).		Two hundred and ninetieth period (July 2189 to June 2190).		Two hundred and ninety-first period (July 2190 to June 2191).		Two hundred and ninety-second period (July 2191 to June 2192).		Two hundred and ninety-third period (July 2192 to June 2193).		Two hundred and ninety-fourth period (July 2193 to June 2194).		Two hundred and ninety-fifth period (July 2194 to June 2195).		Two hundred and ninety-sixth period (July 2195 to June 2196).		Two hundred and ninety-seventh period (July 2196 to June 2197).		Two hundred and ninety-eighth period (July 2197 to June 2198).		Two hundred and ninety-ninth period (July 2198 to June 2199).		Three hundredth period (July 2199 to June 2200).		Three hundred and first period (July 2200 to June 2201).		Three hundred and second period (July 2201 to June 2202).		Three hundred and third period (July 2202 to June 2203).		Three hundred and fourth period (July 2203 to June 2204).		Three hundred and fifth period (July 2204 to June 2205).		Three hundred and sixth period (July 2205 to June 2206).		Three hundred and seventh period (July 2206 to June 2207).		Three hundred and eighth period (July 2207 to June 2208).		Three hundred and ninth period (July 2208 to June 2209).		Three hundred and tenth period (July 2209 to June 2210).		Three hundred and eleventh period (July 2210 to June 2211).		Three hundred and twelfth period (July 2211 to June 2212).		Three hundred and thirteenth period (July 2212 to June 2213).		Three hundred and fourteenth period (July 2213 to June 2214).		Three hundred and fifteenth period (July 2214 to June 2215).		Three hundred and sixteenth period (July 2215 to June 2216).		Three hundred and seventeenth period (July 2216 to June 2217).		Three hundred and eighteenth period (July 2217 to June 2218).		Three hundred and nineteenth period (July 2218 to June 2219).		Three hundred and twentieth period (July 2219 to June 2220).		Three hundred and twenty-first period (July 2220 to June 2221).		Three hundred and twenty-second period (July 2221 to June 2222).		Three hundred and twenty-third period (July 2222 to June 2223).		Three hundred and twenty-fourth period (July 2223 to June 2224).		Three hundred and twenty-fifth period (July 2224 to June 2225).		Three hundred and twenty-sixth period (July 2225 to June 2226).		Three hundred and twenty-seventh period (July 2226 to June 2227).		Three hundred and twenty-eighth period (July 2227 to June 2228).		Three hundred and twenty-ninth period (July 2228 to June 2229).		Three hundred and thirtieth period (July 2229 to June 2230).		Three hundred and thirty-first period (July 2230 to June 2231).		Three hundred and thirty-second period (July 2231 to June 2232).		Three hundred and thirty-third period (July 2232 to June 2233).		Three hundred and thirty-fourth period (July 2233 to June 2234).		Three hundred and thirty-fifth period (July 2234 to June 2235).		Three hundred and thirty-sixth period (July 2235 to June 2236).		Three hundred and thirty-seventh period (July 2236 to June 2237).		Three hundred and thirty-eighth period (July 2237 to June 2238).		Three hundred and thirty-ninth period (July 2238 to June 2239).		Three hundred and fortieth period (July 2239 to June 2240).		Three hundred and forty-first period (July 2240 to June 2241).		Three hundred and forty-second period (July 2241 to June 2242).		Three hundred and forty-third period (July 2242 to June 2243).		Three hundred and forty-fourth period (July 2243 to June 2244).		Three hundred and forty-fifth period (July 2244 to June 2245).		Three hundred and forty-sixth period (July 2245 to June 2246).		Three hundred and forty-seventh period (July 2246 to June 2247).		Three hundred and forty-eighth period (July 2247 to June 2248).		Three hundred and forty-ninth period (July 2248 to June 2249).		Three hundred and fiftieth period (July 2249 to June 2250).		Three hundred and fifty-first period (July 2250 to June 2251).		Three hundred and fifty-second period (July 2251 to June 2252).		Three hundred and fifty-third period (July 2252 to June 2253).		Three hundred and fifty-fourth period (July 2253 to June 2254).		Three hundred and fifty-fifth period (July 2254 to June 2255).		Three hundred and fifty-sixth period (July 2255 to June 2256).		Three hundred and fifty-seventh period (July 2256 to June 2257).		Three hundred and fifty-eighth period (July 2257 to June 2258).		Three hundred and fifty-ninth period (July 2258 to June 2259).		Three hundred and sixtieth period (July 2259 to June 2260).		Three hundred and sixty-first period (July 2260 to June 2261).		Three hundred and sixty-second period (July 2261 to June 2262).		Three hundred and sixty-third period (July 2262 to June 2263).		Three hundred and sixty-fourth period (July 2263 to June 2264).		Three hundred and sixty-fifth period (July 2264 to June 2265).		Three hundred and sixty-sixth period (July 2265 to June 2266).		Three hundred and sixty-seventh period (July 2266 to June 2267).		Three hundred and sixty-eighth period (July 2267 to June 2268).		Three hundred and sixty-ninth period (July 2268 to June 2269).		Three hundred and seventieth period (July 2269 to June 2270). All persons claiming the treasure of any part thereof are hereby required to appear personally or by agent before the Collector of North Arcot at his office on the 11th day of July 1914 in order to the matter being enquired into and determined in accordance with the provisions of the Act.

North Arcot Collector's Office, Vallam,
23rd February 1914

N. E. NARAYANAN,
Collector.

It is hereby notified, under section 5 of Act VI of 1878, that on or about the 23rd and 24th May 1914, while digging for paddy in R. S. No. 177-B of Mullerum, limits of Chirapattinam, Guntur taluk, Guntur District, a Mahasandhan boy named Manjula, Son of Rajeswar and Parantham found treasure consisting of four gold coins (old Roman coin) worth about Rs. 80. All persons claiming the said treasure or part thereof are hereby required to appear personally or by agent before the undersigned at his office at Guntur on the 10th October at 4 p.m. with a view to the matter being enquired into and determined in accordance with the provisions of the said Act.

Guntur Collector's Office,
10th May 1914.

J. N. ROY,
As. Collector.

JUDICIAL NOTIFICATIONS.

PROCLAMATION.

By virtue of a Precept to me directed by His Majesty's High Court of Judicature at Madras, I hereby proclaim and give notice that a *Sesiones* of Open and Terminus and General Court Delivery is and for Fort St. George, the Town of Madras and the local limits thereof and the places and localities subordinated thereto will be held at the Court House of the Court at Madras on Monday the 10th day of August 1914 pending the late term of eleven o'clock in the forenoon for the trial of all crimes and offences done or committed within Fort St. George or the Town of Madras at the local limits thereof and places and localities subordinated thereto and dependent thereon.

And also that at the same time and place will be held a *Sesiones* of Admiralty for the trial of all crimes and offences done or committed on the High Seas.

And I hereby require and enjoin all persons bound to prosecute and give evidence at the above *Sesiones* or to appear as witnesses therein to attend at the time and place above mentioned and not to depart without leave.

Dated this 10th day of May 1914.

GOWINDOSS CHETTHOOSHIADONK,
Sheriff of Madras.

NOTIFICATIONS.

THE INDIAN EVIDENCE ACT, 19 of 1872.

Notice is hereby given that Messrs. C. Mangamman Chetti & Co., No. 5, Krishna Apper Street, Georgetown, Madras, have applied for a license to construct a magazine for the storage of manufactured fireworks on a site in Perambur bounded on the north by Ramalingam Road of Frisinghjee, north by land belonging to Manuvaran Madalayar, east by land belonging to Thangavelu Madalayar and on the west by Jacob's land and Vellemakkal. Any person who may have objection to the construction of the magazine on the proposed site is required to send to the undersigned and to the approver, a notice of his objection to appear and object with his name, address and calling and a short statement of the grounds of his objection. The notice should reach the undersigned not later than the 7th June 1914. Objections, if any, will be heard on the 20th June 1914.

City Police Office, Madras,
23rd May 1914.

F. ARCHITAGE,
Commissioner of Police.

Under the provisions of Part X of the Code of Civil Procedure, 1908, and with the previous sanction of His Excellency the Governor in Council, the High Court has made the following amendments to rules 3 and 4 of order XXXII and form 56, B of appendix II to the First schedule of the said Code, viz:—

I. For rules 3 and 4 of order XXXII of schedule I of the Code of Civil Procedure, 1908, substitute:—

3. (1) Where the defendant is a minor, the Court, on being satisfied of the fact of his minority, shall appoint a proper person to be present as his next friend.

(2) An order for the appointment of a guardian for the suit may be obtained upon application in the same and on behalf of the minor as by the plaintiff.

(3) The application shall be supported by an affidavit, verifying the fact that the proposed guardian has no interest in the outcome of the suit (in the suit address to that of the minor and that he is fit person to be so appointed. The affidavit shall further state the name of the person or persons on whom notice has to be served under the provisions of sub-rule (5).

(4) An application for the appointment of a guardian for the estate of a minor shall not be combined with an application for bringing on record the legal representatives of a deceased plaintiff or defendant. The application shall be by separate petition.

(5) No order shall be made on any application under this rule except upon notice to any guardian of the estate appointed or declared by an authority competent in that behalf or, where there is no guardian, upon notice to the father or other natural guardian of the minor, or, where there is no father or other natural guardian, to the person or persons who are the nearest or, after hearing any objection which may be lodged on behalf of any person served with notice under this sub-rule. The notice required by this sub-rule shall be served six clear days before the day named in the notice for the hearing of the application and may be in form No. 11 set forth in appendix of forms.

4. (1) Any person who is of sound mind and has attained majority may act as next friend of a minor or as his guardian for the suit:

Provided that the interest of that person is not adverse to that of the minor and that he is not, in the case of a next friend, a defendant or, in the case of a guardian, for the suit a plaintiff.

(2) Where a minor has no person appointed or declared by competent authority, no person other than the guardian shall act as the next friend of the minor or be appointed his guardian for the suit unless the court considers, for reasons to be recorded, that it is for the minor's welfare that another person be permitted to act or be appointed, as the case may be.

(3) No person shall without his consent be appointed guardian for the suit. Wherever an application is made proposing the name of a person as guardian for the suit, a notice in form No. 11-A set forth in appendix of forms shall be served on the proposed guardian, and on the applicant himself in the proposed guardian or the proposed guardian consents.

(4) Where there was other person fitted, willing to act as guardian for the suit, the court may appoint any of its officers to be the guardian, and may direct that the costs to be incurred by that officer in the performance of his duties as guardian shall be borne either by the parties or, by one or more of them at the parties to the suit, or out of any fund in court in which the minor is interested and may give directions for the engagement or discharge of the costs as justice and the circumstances of the case may require.

(5) When a guardian for the suit of a minor defendant is appointed, and it is made to appear to the court that the guardian is not in possession of any, or sufficient funds for the conduct of the suit on behalf of the defendant, and that the defendant will be prejudiced in his defence thereby, the court may, from time to time, order the plaintiff to advance moneys to the guardian for the purpose of his defence and all moneys so advanced shall form part of the costs of the plaintiff in the suit. The order shall direct that the guardian, as and when directed, shall file in court an account of the moneys so received by him.

II. For form No. 11 of appendix E to the Code of Civil Procedure the following form is substituted:—

Form No. 11.

Notice to guardian appointed or declared, or to father or other natural guardian, or to the person in charge of the estate.

[Order XXXII, Rule 1 (3).]

(Title.)

To

Gardian appointed or declared, or father or other natural guardian, or person in charge of the estate.

Whereas an application has been presented on the part of the _____ in the above suit for the appointment of a guardian for the suit for the said minor, you are hereby required to give notice first, unless within _____ days from the service upon you of this notice an application is made to this court for the appointment of you or of some friend of the said minor to act as his guardian for the purposes of the said suit, the court will proceed to appoint some other person, to act as guardian of the said minor for the purposes of the said suit.

Given under my hand and the seal of the court, this _____ day of _____ 19____.

Form No. 11-A.

Notice to proposed guardian.

[Order XXXII, Rule 4 (1).]

(Title.)

To

_____ residing at _____

Take notice that the above-named petitioner has made an application to this court to appoint you guardian for the suit of _____ and that the said application will be heard on the day of _____ 19____.

Given under my hand and the seal of the court, this _____ day of _____ 19____.

III. In order XXXII after rule 14 add the following as rule 14-A:—

14-A. The appointment or discharge of a next friend or guardian for the suit of a minor in a matter pending before the High Court in its appellate jurisdiction, except in cases under appeal to the King in Council, shall be deemed to be a question of fact within the meaning of section 113 (2) (3) of the Code of Civil Procedure and may be performed by the Registrar, provided that verified applications and applications presented out of time shall be posted before a Judge for disposal.

PUBLIC WORKS NOTIFICATION.

NOTICE.

In the old Dutch cemetery at Vengalpetam there is an old Dutch grave dated 1689 bearing the following inscription, viz:—

"Here lies the body of Anne widow daughter of Jhn Tird some times chief of Madraspetam and wife to Jhn van Blonck second of Vengalpetam died 1795 June 1689 aged about 55."

The monument over the grave has a large round roof and this roof is in a dangerous condition with large cracks in it. These cracks in some places are as much as three inches wide and have shrubs growing in them.

The public are hereby informed that in accordance with Part IV of the Government of India Regulations Rules as published in Madras Government order No. 25, Fortification, dated June 1903, 1910, Rule 14, the vaulted roof will be demolished after this notice is advertised in the Gazette of India and in the Gazette of the Madras Presidency and that all necessary masonry work on the ground level will be cleared away leaving the inscription placed in simple masonry over the site.

A. S. LAURIE,

Executive Engineer, Vengalpetam District.

Vengalpetam, 28th May 1914

REVENUE NOTIFICATIONS.

NOTIFICATIONS.

In modification of Notification No. 25, dated 26th October 1891, published on page 1170 of the Port St. George Gazette, dated 26th October 1891, and under section 43 of the Madras Salt Act IV of 1859, the Commissioner hereby declares that, during the period when the Saltstall small is closed for service or when there is scarcity of water in that canal, Police shall be a preventive station at which all salt recovered from the Pandava factory shall be detained and examined.

Board of Revenue (Separate Revenue),
Madras, 25th May 1914.

H. H. F. M. TYLER,
Secretary.

Under the powers vested in him by section 1 of the Madras Salt Act IV of 1859, the Commissioner of Salt, Affairs and Separate Revenue delegates to Assistant Commissioners within their sub-divisions the power of appointing, promoting, suspending, reducing and dismissing clerks on Rs. 55 or less. The words "clerks on Rs. 55," occurring in paragraph 1 (b) of Commissioner's Notification No. 54, dated 26th December 1899, published on pages 1436—1437, Part II of the Port St. George Gazette, dated 26th December 1899, shall be altered into "clerks on Rs. 50."

Board of Revenue (Separate Revenue),
Chennai, 16th May 1914.

H. H. F. M. TYLER,
Secretary.

The following person has been granted a certificate of approval under the mining rules:—

No.	Designation and address.	Date of order granting the certificate.	Area in which the person proposes to prospect or mine.

W. MAXWELL,
Deputy-General of Posts and Telegraphs.

OFFICIAL ADVERTISEMENTS.

SALE OF SANDALWOOD.

Notice is hereby given that the following approximate quantities of sandalwood will be put up to auction by the undersigned at the Valore Depot on the 1st July 1914 at 9 A.M.

2. No person will be allowed to bid at the auction sale unless he furnishes an earnest money deposit of Rs. 1,000 (one thousand, only). The deposit will be retained in the case of the highest bidder and will be adjusted towards the price so money is the cost of the sale later confirmed. If the sale is not confirmed the deposit will be returned. In the case of other bidders, the deposits will be returned at the close of the sale.

3. The bids are subject to the approval of the Commissioner of Forests, Southern Circle, Trichinopoly, who does not bind himself to accept the highest or any bid.

4. In the event of any bid being accepted by the Commissioner of Forests, Southern Circle, the successful bidder will have to pay the purchase money in full within ten days of the date of receipt of the order confirming the sale.

5. In the case of failure to make payment by the due date the sandalwood will be resold at the purchaser's risk and the deposit will not only be forfeited to Government but also any loss according by such resale, incurred from the original purchaser.

6. The purchaser must take delivery of the sandalwood after payment and within five days from the date of receipt of the order confirming the sale. If he or his Agent does not attend on the due date for the weighing of the sandalwood purchased, no further weighing will be made, i.e., no drays will be allowed and the weight recorded at the time of sale (which is the weight recorded immediately after final clearing and that exists at the time of sale) must be accepted by him.

7. The sandalwood will be weighed as it is in the depot in the presence of the purchaser or his authorized agent and no further clearing will be undertaken by the Forest Department nor will purchasers be allowed to clear any wood previous to weighing. The classification, clearing and weighing as determined by the Forest Department must be accepted.

8. The purchaser will bear the cost of weighing at the time of delivery.

9. The purchaser will be allowed one week from the date of delivery after weighing to remove the wood, during which period, it will be kept in the depot at his risk. If the purchaser fails to remove all the wood within that period, clearance will be charged at the rate of Rs. 5 (five) per day until the 1st July 1914 after which date any sandalwood remaining will become the property of Government.

10. The highest bidder will be required to sign the auction list in token of his having understood the conditions of sale.

11. Further particulars can be had on application to the undersigned.

TENDERS FOR CONSTRUCTING POLICE BUILDINGS AT KAYALUKE,
HAMMAD DISTRICT.

Notice is hereby given that sealed tenders will be received by the Executive Engineer, Madras Special Division, at his office at Madras up to 3 P.M. on 25th June 1914 for the work "Constructing Police buildings—estimated Rs. 12,000—at Kayaluke."

2. Each tender must be sealed and superscribed "Tender for constructing Police buildings at Kayaluke, Revenue district," and accompanied by a sum of Rs. 500, and the Executive Engineer reserves the right of rejecting any tender without assigning any reason for so doing.

3. Printed tender forms (K₁ and K₂) can be had on application at the Madras Special Division office, Public Works Department.

4. Plans, specifications and schedule of quantities may be seen at the Executive Engineer's office, Madras Special Division, on all days except Sundays and holidays between 10 a.m. and 5 p.m.

5. Tenders should show clearly the rates offered for the various descriptions of work at which the tenderer will agree to execute the work.

6. The tenders will be opened by the Executive Engineer, Madras Special Division, on 30th June 1914, and the successful tenderer will be expected to start work within fifteen days of receipt of notice that his tender has been accepted, failing which his deposit will be forfeited to Government.

7. The deposits of unsuccessful tenderers will be returned after allotment of contract.

8. The contract will not be allowed to sublet.

9. The Executive Engineer does not undertake to notify the successful tenderers of the acceptance of their tenders.

10. Telegraphic tenders will not be considered.

11. No extra rate will be paid above the accepted tender rates for any material on account of its having to be obtained from special localities in conformity to the specifications or approved samples.

TENDER SCHEDULE FOR CONSTRUCTING POLICE BUILDINGS AT KAYALUKE,
HAMMAD DISTRICT.

Quantity	Description of work.	Rate per
Each work.		
1000 c.ft.	Excavation for foundations	1,200 c.ft.

NOTE.—(a) The trees are planted 5' x 5' at 500 per acre. Windbreak and other trees have been reserved from this to form.

(b) The plantation contains 40 coconut palm trees.

2. The area as a whole or its compartments or sub-compartments will be sold with the standing growth (except subject to payment of annual land assessment to the Revenue Department according to the rates adopted for the neighbouring lands).

CONTRACTS OF THE SALE.

3. No person will be allowed to bid at the auction unless he has previously deposited with the District Forest Officer, Lower Godavari, a sum of Rs. 50/- as the earnest money. A fresh deposit of Rs. 25 should be made in respect of each subsequent item for which a person wishes to bid in case he is the highest bidder of more than one item. The District Forest Officer may at his discretion reduce the amount of earnest money in any case. Every person who has furnished the deposit shall produce a certificate as to his solvency duly signed by the Tahsildar or Deputy Tahsildar within whose jurisdiction such person usually resides or owns property before the highest bid can be knocked down in his name. The District Forest Officer may, however, exempt or discharge any person from the production of the above certificate.

4. No person will be allowed to bid for another or for himself and another jointly unless he holds a power of attorney duly executed in his favour authorising him to bid on behalf of such other person.

5. The deposits of all unsuccessful bidders will be returned soon after the sales are finished, while those of the successful bidders will be retained for adjustment as per condition 8 towards part-payment of the sale amount due by them.

6. In the case of any dispute relating to the sale arising from the decision of the District Forest Officer (Lower Godavari) shall be final.

7. The District Forest Officer reserves to himself the right of rejecting any bid notifying the highest bid without assigning any reason for so doing.

8. The sale bid shall be signed by the highest bidder of every item immediately after the bid is knocked down in his name which will be tantamount to a certificate that he has read and understood the terms of the sale notice and that he agrees to abide by the terms thereof.

9. The highest bidder of every item must deposit with the District Forest Officer immediately after the sale is knocked down in his name 50 per cent. of the sale amount less the earnest money deposited by him under condition 3 above. The remaining 50 per cent. of the sale amount which will be due by the highest bidder should be paid to the District Forest Officer within one month from the date of receipt by the highest bidder of the notice from the Collector, Godavari. The sale will then be confirmed. The highest bidder should distinctly understand that the sale will not be confirmed unless and until the whole of the sale amount is paid by him to the District Forest Officer.

10. In case the highest bidder of any item fails to pay the first deposit of 50 per cent. of the sale amount in accordance with condition 9 above, the item will be immediately resold at the risk and loss of such highest bidder who will not only forfeit the earnest money deposit or any other deposit already furnished by him but will also be liable for the loss if any occurring by the resale. He will not be entitled to the profit if any that may result from the resale.

11. In case the highest bidder of any item fails to pay up the 50 per cent. of the sale amount within one month from the date of receipt by him of the Collector's order confirming the sale as required by condition 9 above, the item will be resold at the risk and loss of such highest bidder who will not only forfeit any deposit already furnished by him under condition 9 above but will also be liable for the loss if any occurring by the resale. He will not be entitled to the profit if any that may result from the resale.

12. As soon as the whole sale amount is paid by the highest bidder the Collector of Godavari in the Revenue Branch will issue a certificate for the grant of a jaguati patha in the form that may be in force in respect of the item in favour of the highest bidder.

Unless and until the whole of the sale amount is paid in cash a receipt obtained from the District Forest Officer as highest bidder shall enter upon the land and receive any growth thereon.

13. Interested bidders may obtain at any time further particulars regarding the sales at the District Forest Office, Lower Godavari, Comacina.

14. The area and quantity shown in the schedule are duly approximate and interested bidders are advised to estimate the crops themselves.

Collector's Office, Godavari District (Forest Branch),
Comacina, 13th May 1914.

E. B. ELWIN,
Collector.

NOTICE OF SALE OF SHELL-FIT AREAS IN THE CHINGLAPUT SUB-DIVISION.

You are hereby notified that the rights of excavating shells in the waste lands of the undermentioned places will be open up to auction at the upset price named against each at the office of the Inspector, Salt, Alkali and Customs Department, Madras Depot Circle, near Elphinstone Gate at Madras, on Tuesday, 26th June 1914, at 12 noon.

1. The lease will extend for three years from the date of confirmation of the bids by the Deputy Commissioner, Salt, Alkali and Customs Department, Central Division.

2. A deposit of Rs. 200 must be made by each intending bidder previous to bidding and it will be received by the Inspector, Salt, Alkali and Customs Department, Madras Depot Circle, at any time during the office hours, within three days previous to the date of sale.

3. No person will be allowed to bid for another, unless he holds a power-of-attorney from him. Such facts should be brought to the selling officer's notice at once.

6. The selling officer may for valid reasons refuse to accept any bid, and in case of dispute his decision shall be final; if, for any reason, the highest bid is rejected, the selling officer may at his discretion either accept the next highest bid or commence the auction again.

7. The final acceptance of bids shall rest with the Deputy Commissioner, Salt, Agricultural Customs Department, Central Division, who reserves to himself the right to accept or reject any bid at his discretion.

8. The deposits made by the unsuccessful bidders will be returned, as soon as possible, after receipt of the order of the Deputy Commissioner, Central Division, on the auction sale report.

9. As the auction proceeds, each successful bidder shall at once, if so required by the selling officer or otherwise at the close of the day's sale, make such further deposit as the selling officer may require. Should he fail to do so, the deposit made by him under condition 8 and 9 above will be forfeited and the whole will be put up to auction again or otherwise disposed of as the Deputy Commissioner may determine, and the deficiency may be deferred from bidding again at any subsequent sale of salt-works by the Deputy Commissioner.

10. On the acceptance of the bid the successful bidder will be required to enter into an agreement within a week for the due performance of his contract and pay one-tenth of the auction amount to the Assistant Commissioner, Chingapat Sub-Division, or any officer authorized by him. Should the bidder fail to do so, the deposit made by him under condition 8 and 9 above will be forfeited and the whole will be put up to auction again or otherwise disposed of as the Deputy Commissioner may determine. Reasonable interest will be at the risk of the defaulting bidder who will forfeit all paid, and, in the event of a loss, will be required to make good the deficiency between the amount payable under the terms of the original sale and that payable by the successful bidder at the result.

11. A copy of the form of the agreement can be seen at the office of the Assistant Commissioner, Chingapat Sub-Division, Madras, where all further information on the subject can be obtained.

12. Before commencement of the work by the lessee in the areas leased out, the Inspector, Salt, Agricultural Customs Department, Tiruchalur Circle, under whose jurisdiction the areas lie, shall proceed to the spot and parcel and divide such areas according to the number of years for which they have been leased out, so that it may be ascertained that only one parcel shall be worked at a time.

13. The amount paid under conditions 7, 8 and 9 above will be adjusted towards the fourth instalment of purchase money payable under condition 11 of the agreement.

14. Should places to be leased out.

MIR HAZUDDIN SAHIB,
Asst. Assistant Commissioner.

SALE OF IVORY, ELEPHANT TUSK, ETC.

Notice is hereby given that a large stock of very, elegant teeth, porcelain, imported from France and other towns and old worn, elegant dentures, will be sold in public auction by the Conservator of Forests, Quebec, at his office in Quebec on Monday the 10th June 1914 (at 10 o'clock), and on the succeeding days, if necessary.

2. The articles will commence at 12 noon.
3. Incoming purchasers must deposit a sum of Rs. 25.00 as earnest money before the auction commences or they will not be allowed to bid. The earnest money will be returned to them after the close of the auction sale. If on purchase is made, but in the case of the successful bidder, the earnest money paid by them will be applied towards the amount due from them.
4. No person is allowed to advance less than Rs. 1 at each bidding or to be at liberty to recall his bidding on any account.
5. The successful bidder should pay on the spot, the whole of the purchase money and if he fails to do so, the earnest money deposited by him will be forfeited to Government, and the article reserved. If upon such state any deficiency is found offered at the first sale shall arise, the following purchaser shall be liable to repay and make good such deficiency and to pay the additional cost and expense, if any, of such resale; but he shall not however be entitled to any advantage or benefit of a higher price secured by the resale.
6. On the completion of the purchase after payment of the full value such of the purchaser shall be granted a year abating him to transport the articles purchased to the place of destination.
7. The articles may be impounded on the date of auction or prior to it by special arrangement with the undersigned.
8. The articles will be sold one by one to the highest bidder, but the Commissioner of Revenue reserves the right of rejecting any bid without assigning any reason therefor.

Conservator's Office, Guilford,
Ibid April 1946.

M. HAMA RAO,
Chairman of Panel

The Standard Barometer and Thermometer are read at 8 a.m., 10 a.m., 2 p.m., and 4 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The surface of the barometer is twenty-two feet above the level of the sea, and the maximum of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 3.26 inches, the average day for the same period being 4.74 inches.

**ABSTRACT OF THE MEAN METEOROLOGICAL CONDITIONS AT MAIRNAS IN MAY 1914
compared with the average of past years.**

There were 4 calm hours during the month. The remainder corresponding to the above numbers is represented by a S. by E. wind, blowing with a uniform daily velocity of 100 miles.

Mairnas Observatory, 24th June 1914.

R. LA. JONES,
Deputy Director.

DISTRICT REPORTS.

GAMIAN.

Water-supply sufficient. Ricefields and Surada reservoirs 147 feet and 174 feet deep respectively. Sowing of rice, groundnuts, gingelly and paddy proceeding. Standing crops fair. Harvested rice, cotton fair to normal. Pasture generally sufficient; fodder generally available. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects generally fair.

VISAGAPATAM.

Water-supply generally sufficient. Sowing of paddy and ramba proceeding steadily; sowing of gingelly and cotton proceeding; sowing of rice, cotton, and transplantation of rice beginning or proceeding. Standing crops thriving. Pasture and fodder generally sufficient. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects generally fair.

GODAVARI.

Water-supply insufficient in three taluks and four divisions. Between 65 feet above sea-level. Ploughing and sowing of land, raising of seed beds and sowing of gingelly proceeding. Standing crops fair. Harvested cotton and rice, cotton fair; paddy, fair to normal. Pasture scarce except in five taluks and two divisions; fodder sufficient except in one taluk. Condition of cattle good; but feet and mouth disease in one taluk. Employment available. Grain-stocks sufficient. Prospects fair.

KISTNA.

Water-supply adequate in delta except in parts of one taluk but quite inadequate throughout rest of delta. Between 3-6 feet below sea-level. Eastern delta divisions closed. Raising of seed beds beginning or proceeding; raising of land proceeding or ending; sowing of gingelly and ploughing in progress, and ploughing of sugarcane ending. Standing crops, fair to good. Harvested paddy, cotton normal. Pasture scarce in parts; fodder insufficient in parts of two taluks. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects fair.

GUNTUR.

Water-supply insufficient. Ploughing, sowing and preparing of seed-beds in progress. Standing crops fair. Harvested paddy, cotton poor. Pasture scarce; fodder sufficient. Condition of cattle generally good; but maldigestion one-third, skin irritation, undergrowth and scabies in one taluk each. Employment available. Grain-stocks sufficient. Prospects good.

EENPOOL.

Water-supply insufficient except under spring channels and wells. Tungabhadra 175 feet below sea-level, discharge through tankers and canals sufficient. Ploughing for next season proceeding in parts. No pasture; but fodder generally sufficient. Condition of cattle generally good; but maldigestion in three taluks. Employment available. Grain-stocks sufficient. Prospects fair.

SANGHAMAPALLE.

Water-supply sufficient. Ploughing in progress. No pasture; but fodder sufficient. Condition of cattle good. Employment available. Grain-stocks sufficient. Prospects fair.

KOLLAPUT.

Water-supply insufficient except in two taluks. Ploughing and preparing of lands for next season, raising seed grain and sowing in progress; sowing of gingelly and cotton beginning. Standing crops fair, but paddy falling in parts of one taluk. Harvested paddy; cotton fair to normal; tobacco and cotton, fair. Pasture not available; fodder sufficient. Condition of cattle good; but maldigestion, scabies and diarrhoea in parts of two, two and one taluks respectively. Employment available. Grain-stocks sufficient. Prospects fair.

SANDUR.

Water-supply sufficient. Ploughing in progress. Standing crops good. No pasture; but fodder sufficient. Condition of cattle good; but maldigestion one-third in one village. Employment available. Grain-stocks sufficient.

ANANTAPUR.

Water-supply insufficient generally. Ploughing for next season, transplantation of rice and sowing of sugarcane in progress in parts. Standing crops fair. Harvested paddy; cotton fair. Pasture scarce; but fodder generally available. Condition of cattle generally good; but maldigestion in parts of two taluks. Employment available. Grain-stocks sufficient. Prospects generally fair.

OUDUPATAM.

Water-supply insufficient generally. Ploughing for paddy, rice, cotton and horse and sowing of cotton and horse in progress. Standing crops fair. Harvested paddy, horse and gingelly; cotton fair to normal. Pasture scarce; fodder sufficient. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects fair.

WELLER.

Water-supply generally insufficient. No flow near Wellers and Bengon valleys and no discharge. Ploughing and sowing in progress in parts. Standing crops fair to good generally. Harvested paddy; cottons fair to bumper; tobacco fair to normal; sunnys and horse normal; shillies and bananas, fair. Pasture generally available, fodder generally sufficient. Condition of cattle generally good, but inadequate in parts. Employment available. Grain-stocks sufficient. Prospects generally good.

CHIRALEPUT.

Water-supply generally sufficient. Ploughing for paddy, sug, sunnys and gingelly, sowing of paddy, sunnys and gingelly, and transplanting of sug in progress. Standing crops generally fair. Harvested paddy, cottons fair. Pasture and fodder available. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects fair.

MADHAS.

Employment available. Grain-stocks sufficient.

SOUTH ARROY.

Water-supply sufficient except in some tanks. Ploughing, sowing of gingelly, sunnys and groundnut, transplanting of paddy, sugarcane and sug and weeding of paddy and groundnut in progress in parts. Standing crops fair. Harvested paddy, sug and sugarcane, cottons fair. Pasture mostly in one tank; fodder available. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects fair.

CHITTODR.

Water-supply generally insufficient. Ploughing for sug and sunnys, planting of sugarcane, transplanting of sug and sowing in progress. Standing crops fair. Harvested paddy, sunnys, peas to normal. Pasture and fodder generally available. Condition of cattle generally good, but inadequate in parts of one tank. Employment available. Grain-stocks generally sufficient. Prospects generally fair, but want of rain is heavily felt.

NORTH ARROY.

Water-supply insufficient in parts of two tanks and one division. Ploughing for dry and wet crops and sowing of dry crops generally proceeding, sowing of gingelly, sunnys, sunnys and paddy and planting of sugarcane and transplanting of sug in progress in parts. Standing crops generally good. Harvested paddy and sug, cottons poor to normal. Pasture mostly in two tanks and two divisions; fodder available. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects generally fair.

SALEN.

Water-supply insufficient except in parts of three tanks. Sowing of paddy, sug, sunnys, gingelly and groundnut, and transplanting of paddy and sug in progress in parts. Standing crops fair but crops in rain. Harvested paddy, cottons fair to bumper; sug, shillies, gingelly and tobacco, fair to normal. Pasture sufficient except in parts of three tanks; fodder available. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects good.

COMBATORE.

Water-supply sufficient in parts. Four feet of water in Quarry at Erode. Ploughing, sowing of cotton, sunnys, total, sugarcane in progress in parts, paddy cultivation begins in one tank. Standing crops fair to good, but sugarcane more poor. Harvested cotton; cottons poor to fair in parts; no paddy stored. Pasture not available in parts; fodder scanty. Condition of cattle fair to good. Employment available. Grain-stocks sufficient. Prospects generally fair.

TRICHINOPOLY.

Water-supply insufficient. Transplanting of paddy and sowing of cotton and sunnys in progress. Standing crops fair. Harvested paddy and cotton in parts; cottons fair to normal. Pasture generally sufficient; fodder available. Condition of cattle good. Employment available. Grain-stocks sufficient. Prospects good.

TANJORE.

Water-supply insufficient except in one tank. No flow near Grand Anish and supply inadequate. Paddy sowing being carried in parts of one tank. Standing crops fair. Harvested paddy in parts; cottons fair. Pasture generally sufficient; fodder available. Condition of cattle generally good, but inadequate in parts of two tanks. Employment available. Grain-stocks sufficient. Prospects generally fair.

PUDUCHOTTAI.

Water-supply sufficient. Cultivation of garden crops in progress in parts. Standing crops fair. Pasture and fodder sufficient. Condition of cattle good. Employment available. Grain-stocks sufficient. Prospects good.

MADURA.

Water-supply insufficient except in one tank. Ploughing and sowing of dry crops proceeding, transplanting of sug and cottons beginning in parts. Standing crops generally fair. Harvested sug and shillies in parts; cottons fair. Pasture available except in heartlands; fodder available. Condition of cattle generally good. Employment available. Grain-stocks generally sufficient. Prospects fair.

RAJAHMUNDRAM

Water-supply insufficient. Ploughing and sowing of dry and wet lands and sowing of sholas, sugarcane and paddy in progress in parts. Standing crops fair to good. Harvested sholas, brads, plashens, sugarcane and gingelly, cotton, fair; cotton, poor to fair. Pasture sufficient except in parts; fodder available. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects generally fair.

TIRUNELVELLY.

Water-supply sufficient except in parts. No flow over Srivikraman aihol and no discharge allowed through the aihol. Ploughing and sowing in progress; sowing of paddy begun in parts. Standing crops good. Pasture sufficient except in parts; fodder available. Condition of cattle generally good but foot and mouth disease is there fatal. Employment available. Grain-stocks sufficient. Prospects fair.

MALABAR.

Water-supply insufficient in parts. Standing crops fair. Pasture improving; fodder available. Foot and mouth disease is now fatal. Employment available. Grain-stocks sufficient. Prospects fair.

SOUTH CANARA.

Water-supply insufficient. Ploughing and sowing of seed-beds for first paddy crop progressing. Standing and first paddy crop generally good. Pasture scanty; fodder available. Condition of cattle generally good. Employment available. Grain-stocks sufficient. Prospects fair.

TRAVANCORE.

Water-supply sufficient. Pasture sufficient. Sowing begun. Condition of cattle good.

COCHIN.

Water-supply sufficient. Standing first crop paddy progressing. Pasture and fodder sufficient. Condition of cattle fair.

THE NILGIRIS.

Water-supply sufficient. Ploughing, sowing and sowing of male crops proceeding. Standing crops fair. Harvested tea; cottons fair. Pasture and fodder sufficient. Condition of cattle good. Employment available. Grain-stocks sufficient. Prospects fair.

SEASON TELEGRAM TO THE GOVERNMENT OF INDIA, REVENUE AND AGRICULTURAL DEPARTMENT, SIMLA.

Week ending 24 June 1914.—Rainfall good to heavy West Coast, Ganjam, Pudukkottai, Nilgiris; nil Bangalore, Saurat, Cuddapah, Nellore, Chittoor; light to fair elsewhere. Standing crops fair to good generally but require rain in parts three districts and paddy withering in parts Bellary. Harrows of paddy, sugarcane and dry crops proceeding or sowing in parts; cottons fair to normal generally. Sowings of paddy and dry crops and planting of sugarcane proceeding normally in parts. Condition of cattle generally good; water-supply insufficient for irrigation in parts of most districts; pasture scanty in parts of many districts, but fodder generally sufficient. Prices stationary.
